

# **PROCEDURES FOR ACCEPTANCE OF ROADS FOR COUNTY MAINTENANCE**

## **POLICY NO. 19-03**

**PURPOSE**                    To ensure uniformity in the acceptance of roadways within Hernando County for County maintenance.

**POLICY:**                    Requests from residents within the County for the acceptance of a street by the County for maintenance by the County which does not meet the standards outlined in the County's Subdivision Regulations, will require the street to be brought into compliance prior to acceptance by the County.

Such improvements will be performed under an assessment program wherein the residents are charged 100% for the cost of such improvements. The Board of County Commissioners will utilize its discretion as to whether or not the work will be done in-house or contracted out, whichever method is best for the residents.

Once the improvements have been made, the Board will consider accepting the road for maintenance.
