REQUEST FOR EARLY ELECTRIC RELEASE COMMERCIAL PROJECTS

Date: _____

Permit No.: _____

Project Name: _____

Electrical Contractor Name: _____

To Hernando County Building Division:

I, _____, as the electrical contractor of record for the above project, hereby request early release of the electrical power to the commercial building permitted under the above referenced building permit number.

I understand that an inspection for early release must be completed by the electrical inspector prior to an electrical release being issued. I understand that the following conditions must be met before the inspection for early release:

- Panel must be lockable or the electrical room must be lockable
- Fire extinguisher must be installed close to the panel or inside the electrical room
- Temporary or final index must be on the panel

I understand that as the contractor, I assume all liability for the electrical system upon approval of the early release. I further understand that all electric must be complete at the time the final electric inspection is requested.

I understand that any code violation or unapproved use of the building prior to Certificate of Occupancy may result in citations, fines, and/or removal of the electrical meter.

Electrical Contractor or
Authorized Agent for Electrical Contractor
