

HERNANDO COUNTY
APPLICATION PACKET
RESIDENTIAL ELECTRICAL PERMIT

Introduction

This is an application for an electrical permit. All items listed in the Checklist must be submitted with your completed application. Your application cannot be processed if any one of the items listed is incomplete or missing. An application for any proposed work becomes void if not picked up within 180 days.

There is a non-refundable administrative review fee to be paid at the time your application is submitted. This fee will be credited toward the cost of your permit, if the application is approved. Many of the forms required to be submitted with this permit application are required to be notarized. Notary services are available in our office.

Notice of Commencement

If the valuation of the job is greater than \$2,500, a NOTICE OF COMMENCEMENT (NOC) must be recorded at the Hernando County Recording Office and posted on the job site. A certified copy of the recorded NOC must be submitted to the Building Services before your permit can be issued. *Please read the important information on the Construction Lien Law included with this packet.*

Inspections

A list of required inspections will be given to you when your permit is issued. It is the contractor's (owner/builder's) responsibility to ensure that all required inspections are made prior to proceeding with work on projects. You must call for a final inspection within ten (10) working days of completion of your project. Final inspections that have been red tagged must be reinspected within seven (7) working days. All red tag fees must be paid prior to final inspection. Upon issuance of your permit, work must begin within 180 days. If work is not begun within 180 days from permit issuance, or work is suspended or abandoned for a period of 180 days, your permit will become inactive. Be advised that lack of inspection activity for a 180-day period is considered suspension or abandonment of the permitted work.

Additionally, it is the contractor or owner/builder's responsibility to ensure corrections are made to items that have been red tagged, the red tags paid, and re-inspections performed and approved prior to proceeding with work. Red tags must be recalled for inspection and paid, if applicable, within seven (7) working days. Failure of the contractors or owner/builders to request and receive re-inspections before proceeding with additional work may result in disciplinary action or a fine against the contractor or owner/builder.

Permit Expiration

A valid permit may be extended past the 180 day time frame if an extension is requested in writing and justifiable cause has been demonstrated. Additional fees apply for an extension of the permit. Inactive permits must be reactivated before work may continue under the permit. Additional fees apply for reactivating a permit. A building permit is only valid for a period of 2 years from date of issuance. Any permit not finalized or voided within 2 years is expired. Construction work not completed pursuant to an expired permit shall be re-permitted, and additional fees will apply.

HERNANDO COUNTY
APPLICATION CHECKLIST

RESIDENTIAL ELECTRICAL PERMIT

The following items are required with submission of your building permit application:

- Building Permit Application filled out completely.
- Key Number of Property. This can be found on your tax bill. If this is a newly created parcel, you will need to contact the Property Appraiser's Office at (352)754-4190.
- Owner/Builder Disclosure Statement (if homeowner is pulling permit).
- Diagram illustrating electrical work to be done, on National Electric Code 2014 form.
- If property is not located in a platted subdivision, or when the property has been divided, a copy of your recorded deed is required.

Florida's Construction Lien Law

Protect Yourself and Your Investment

According to Florida law, those who work on your property or provide materials, and are not paid-in-full, have a right to enforce their claim for payment against your property. This claim is known as a construction lien.

If your contractor fails to pay subcontractors or material suppliers, the people who are owed money may look to your property for payment, **even if you have paid your contractor in full.**

This means that if a lien is filed against your property, your property could be sold against your will to pay for labor, materials, or other services which your contractor may have failed to pay.

This document provides information regarding Florida Statute 713, Part 1, as it pertains to home construction and remodeling, and provides tips on how you can avoid construction liens on your property.

Protecting Yourself

If you hire a contractor and the improvements cost more than \$2,500, you should know the following:

- You may be liable if you pay your contractor and he then fails to pay his suppliers or contractors. There is a way to protect yourself. A Release of Lien is a written statement that removes your property from the threat of lien. Before you make any payment, be sure you receive this waiver from suppliers and subcontractors covering the materials used and work performed on your property.
- Request from the contractor, via certified or registered mail, a list of all subcontractors and suppliers who have a contract with the contractor to provide services or materials to your property.
- If your contract calls for partial payments before the work is completed, get a Partial Release of Lien covering all workers and materials used to that point.
- Before you make the last payment to your contractor, obtain an affidavit from your contractor that specifies all unpaid parties who performed labor, services or provided services or materials to your property. Make sure that your contractor provides you with final releases from these parties before you make the final payment.
- Always file a Notice of Commencement before beginning a home construction or remodeling project. The local authority that issues building permits is required to provide this form. You must record the form with the Clerk of the Circuit Court in the county where the property being improved is located. Also post a certified copy at the job site. (In lieu of a certified copy, you may post an affidavit stating that a Notice of Commencement has been recorded. Attach a copy of the Notice of Commencement to the affidavit.)
- In addition, the building department is prohibited from performing the first inspection if the Notice of Commencement is not also filed with the building department. You can also supply a notarized statement that the Notice has been filed, with a copy attached.

The Notice of Commencement notes the intent to begin improvements, the location of the property, description of the work and the amount of bond (if any). It also identifies the property owner, contractor, surety, lender and other pertinent information. Failure to record a Notice of Commencement or incorrect information on the Notice could contribute to your having to pay twice for the same work or materials.

Notice To Owner

Prior to filing a lien, a lienor who does **not** have a direct contract with the owner, must serve the owner with a Notice to Owner. The Notice to Owner must state the lienor's name and address, and a description of the real property and the nature of the services or materials being furnished. The Notice to Owner must be served before commencing, or within 45 days of commencing, to furnish the services or materials (but before owner's final payment to the contractor). A lien cannot be enforced unless the lienor has served the Notice to Owner as described above.

Whose Responsibility is it To Get These Releases?

You can stipulate in the agreement with your contractor that he must provide all releases of lien. If it is not a part of the contract, however, or you act as your own contractor, YOU must get the releases.

If you borrow money to pay for the improvements and the lender pays the contractor(s) directly without obtaining releases, the lending institution may be responsible to you for any loss.

What Can Happen If I Don't Get Releases Of Lien?

You will not be able to sell your property unless all outstanding liens are paid. Sometimes a landowner can even be forced to sell his property to satisfy a lien.

Who Can Claim A Lien On My Property?

Contractors, laborers, materials suppliers, subcontractors and professionals such as architects, landscape architects, interior designers, engineers or land surveyors all have the right to file a claim of lien for work or materials. **Always require a release of lien from anyone who does work on your home.**

Contesting A Lien

A lien is valid for one year, unless a lienor files a lawsuit to enforce the lien prior to the expiration of the year. An owner has a right to file a Notice of Contest of Lien during the one-year period. Upon the filing of a Notice of Contest of Lien, a lienor must file a lawsuit to enforce the lien within 60 days. Failure of the lienor to timely file a lawsuit renders the lien invalid.

THE CONSTRUCTION LIEN LAW IS COMPLEX AND CANNOT BE COVERED COMPLETELY IN THIS DOCUMENT. WE RECOMMEND THAT WHENEVER A SPECIFIC PROBLEM ARISES, YOU CONSULT AN ATTORNEY.

To register a complaint (or learn if complaints have been filed against a prospective contractor), contact the Florida Department of Business and Professional Regulation's Customer Contact Center at: 850.487.1395 or CallCenter@dbpr.state.fl.us

Or write to: Florida Department of Business and Professional Regulation
1940 North Monroe Street
Tallahassee, Florida 32399-1027

Or visit online at: www.MyFloridaLicense.com

License verification is available 24 hours a day and 7 days a week by calling our Customer Contact Center at 850.487.1395 or going online to www.MyFloridaLicense.com Search for a Licensee.

You may also contact your local building department or the Better Business Bureau.

OWNER BUILDER DISCLOSURE STATEMENT

Florida Statutes 455.228(1)

Homeowners hiring unlicensed contractors may be subject to a fine of up to \$5,000.00

To qualify for exemption under any of the following subsections, an owner must personally appear and sign the building permit application. A power of attorney cannot be accepted.

Disclosure Statement - Statement required by Florida Statute 489.103(7)

1. I understand that state law requires construction to be done by a licensed contractor and have applied for an owner-builder permit under an exemption from the law. The exemption specifies that I, as the owner of the property listed, may act as my own contractor with certain restrictions even though I do not have a license.

_____Initial

2. I understand that building permits are not required to be signed by a property owner unless he or she is responsible for the construction and is not hiring a licensed contractor to assume responsibility.

_____Initial

3. I understand that, as an owner-builder, I am the responsible party of record on a permit. I understand that I may protect myself from potential financial risk by hiring a licensed contractor and having the permit filed in his or her name instead of my own name. I also understand that a contractor is required by law to be licensed in Florida and to list his or her license numbers on permits and contracts. Any contractors hired by me will be added to the permit.

_____Initial

4. I understand that I may build or improve a one-family or two-family residence or a farm outbuilding. I may also build or improve a commercial building if the costs do not exceed \$75,000. The building or residence must be for my own use or occupancy. It may not be built or substantially improved for sale or lease. If a building or residence that I have built or substantially improved myself is sold or leased within 1 year after the construction is complete, the law will presume that I built or substantially improved it for sale or lease, which violates the exemption.

_____Initial

5. I understand that, as the owner-builder, I must provide direct, on site supervision of the construction.

_____Initial

6. I understand that I may not hire an unlicensed person to act as my contractor or to supervise persons working on my building or residence. It is my responsibility to ensure that the persons whom I employ have the licenses required by law and by county or municipal ordinance.

_____Initial

7. I understand that it is a frequent practice of unlicensed persons to have the property owner obtain an owner-builder permit that erroneously implies that the property owner is providing his or her own labor and materials. I, as an owner-builder, may be held liable and subjected to serious financial risk for any injuries sustained by an unlicensed person or his or her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an owner-builder and am aware of the limits of my insurance coverage for injuries to workers on my property.

_____Initial

8. I understand that I may not delegate the responsibility for supervising work to a licensed contractor who is not licensed to perform the work being done. Any person working on my building who is not licensed must work under my direct supervision and must be employed by me, which means that I must comply with laws requiring the withholding of federal income tax and social security contributions under the Federal Insurance Contributions Act (FICA) and must provide workers' compensation for the employee. I understand that my failure to follow these laws may subject me to serious financial risk.

_____Initial

9. I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern owner-builders as well as employers. I also understand that the construction must comply with all applicable laws, ordinances, building codes, and zoning regulations.

_____Initial

10. I understand that I may obtain more information regarding my obligations as an employer from the Internal Revenue Service, the United States Small Business Administration, the Florida Department of Financial Services, and the Florida Department of Revenue. I also understand that I may contact the Florida Construction Industry Licensing Board at 850-487-1395 or www.myfloridalicense.com/dbpr/consumers.html for more information about licensed contractors. I also may contact Hernando County Building Division at 352-754-4050.

_____Initial

11. I am aware of, and consent to, an owner-builder building permit applied for in my name and understand that I am the party legally and financially responsible for the proposed construction activity at the following address: _____

_____Initial

12. I agree to notify Hernando County Building Division immediately of any additions, deletions, or changes to any of the information that I have provided on this disclosure.

_____Initial

Licensed contractors are regulated by laws designed to protect the public. If you contract with a person who does not have a license, the Construction Industry Licensing Board and Department of Business and Professional Regulation may be unable to assist you with any financial loss that you sustain as a result of a complaint. Your only remedy against an unlicensed contractor may be in civil court. It is also important for you to understand that, if an unlicensed contractor or employee of an individual or firm is injured while working on your property, you may be held liable for damages. If you obtain an owner-builder permit and wish to hire a licensed contractor, you will be responsible for verifying whether the contractor is properly licensed and the status of the contractor's workers' compensation coverage.

_____Initial

Disclosure Statement-(Electric)-Statement Required by Florida Statute 489.503(6)

State law requires electrical contracting to be done by licensed electrical contractors. You have applied for a permit under an exemption to that law. The exemption allows you, as the owner of your property, to act as your own electrical contractor even though you do not have a license. You may install electrical wiring for a farm outbuilding or a single-family or duplex residence. You may install electrical wiring in a commercial building the aggregate construction costs of which are under \$75,000. The home or building must be for your own use and occupancy. It may not be built for sale or lease. If you sell or lease more than one building you have wired yourself within 1 year after the construction is complete, the law will presume that you built it for sale or lease, which is a violation of this exemption. You may not hire an unlicensed person as your electrical contractor. Your construction shall be done according to building codes and zoning regulations. It is your responsibility to make sure that people employed by you have licenses required by state law and by county or municipal licensing ordinances.
