Solid Waste & Recycling

Subject: Single Source Justification for Suncoast Sand

The Solid Waste Department has been presented an opportunity to purchase sand from the contractor, Lane Construction, extending the Suncoast Parkway. With the future garbage cell in the design phase and construction within the next two years, one of the purchases that would have to be made is sand for the two foot layer on the bottom and sides of the new cell. This is a state and federal requirement for any new garbage cell being built. Lane Construction has excess sand that is perfect for the two foot layer. Lane is also in need of decayed mulch for side slope stability on several areas of the roadway project. The landfill has been stockpiling mulch from yard waste being ground over the years in areas of the landfill property that has allowed it to decay into dirt again. Lane has offered to bring the landfill sand for \$3/cubic yard and take the decayed mulch on the back haul. The \$3/cy is saving the County a tremendous expense when the new cell construction is started and the material would have to be bought and trucked. The amount that is needed is approximately 150,000 cubic yards. Citrus County is currently buying sand for over \$7.00/cy, which at that price would over double the price offered by Lane. Solid Waste is recommending entering into a purchase agreement with Lane Construction for the material at \$3/cy. with the possibility of taking up to 200,000 cy's.

Good Afternoon, Scott,

This e-mail is being sent to confirm that the price per cubic yard for the sand delivered to the landfill from the Suncoast Parkway expansion project is to paid by the county at \$3/CY. Lane is providing the trucking of the material and backhauling soil amendment.

Regards,

Terry Carmichael

Subject: Hernando County Landfill

Working through the process of obtaining a purchase order. Do not need an agreement, which saves us both time. What I do need is confirmation from Lane Construction that the price per cubic yard for the sand delivered to the landfill from the Suncoast Parkway expansion project is to paid by the county at \$3/cy. Lane is providing the trucking of the material and backhauling soil amendment.

If someone can email me back and confirm this statement I can continue moving forward.

thanks
