Source: S:\Share\Planning\NewFLU\CompPlan2040\FLUM_062221.pdf Project: S:\Share\Planning\Zoning\NicoleD_Workspace_S\FLUM\FLUM.mxd Date of mapping: 06/22/2021

Residential Category

Mapping Criteria: The Residential Category is designed to accommodate a variety of residential and support uses at varying densities and types located in areas primarily clustered in and around the Adjusted Urbanized Area and those areas that maximize the efficient use of existing and planned infrastructure.

Rural Category

Mapping Criteria: The Rural Category includes:

- (1) areas outside the anticipated residential growth patterns and planned urban service facilities;
- (2) areas in some level of agricultural use and/or with large tracts of land that are rural in nature;
- (3) Properties with physical limitations (floodplains, sinkholes, wetlands, etc.) and properties transitional to major conservation areas;
- (4) Areas that exhibit a development pattern that is rural residential in nature that may include limited agricultural activities.

Conservation Category

Mapping Criteria: The Conservation Category includes public and private natural areas designated for conservation due to sensitive or unique geologic, historic, hydrologic or environmental characteristics; or held by federal, state or local government agencies for conservation purposes. Weeki Wachee Springs State Park is included in the Conservation Category as it is designated as an area of historical and environmental emphasis and is governed by a specific set of strategies in the Future Land Use Element.

Map Interpretation Guidance:

- (1) Due to general application of a 20-acre mapping threshold for the Future Land Use Map, small or isolated natural features such as wetlands may not be shown on the Future Land Use Map;
- (2) Wetlands and privately-owned uplands in the Coastal Zone that are completely surrounded by Conservation Category lands and do not have direct access to the County roadway network are included in the Conservation Category. These lands are considered to have a Rural Category designation for purposes of allowable uses, subject to the densities assigned in the Coastal Management Element of this Plan;
- (3) Privately-owned uplands within the Coastal Zone having direct access to the County roadway network may be considered to have a Residential Future Land Use Category designation for purposes of allowable uses only, subject to the densities assigned in the Coastal Management Element of this Plan;
- (4) Class I wetlands of forty acres or more shall be included in the Conservation Category pursuant to the Conservation Element of this Plan;
- (5) The boundaries of the Conservation FLUM Category containing wetlands are interpreted to correspond with the wetland boundary as determined by the applicable agencies;

(6) Privately-owned lands that are not designated for conservation purposes outside the Coastal Zone shall be considered to have a Rural Future Land Use Category designation.

Commercial Category

Mapping Criteria: The Commercial Category includes commercial corridors along U.S. 19 and S.R. 50 and designated commercial nodes at intersections of arterial and/or collector roads intended primarily for commercial development with a wide variety of uses.

Map Interpretation Guidance: Areas considered to have a Commercial Category designation but not shown on the Future Land Use Map include neighborhood commercial and specialty commercial uses as described in this Plan, commercial approved as part of mixed use developments, commercial designated by planned development districts, the infill development of existing commercial areas, commercial areas extending from designated commercial nodes, and pre-existing commercially developed and designated areas.

Industrial Category

Mapping Criteria: The Industrial Category includes existing industrial zoned properties and areas proposed for industrial use due to their proximity to appropriate infrastructure, especially transportation, and their relatively low impact to existing surrounding land uses.

Mining Category

Mapping Criteria: The Mining Category includes the area north of S.R. 50 within the outer boundaries of mining zoned properties existing as of June 7, 1989, and lands which receive comprehensive plan amendment approval to the Mining Category after June 7, 1989.

Recreation Category

Mapping Criteria: The Recreation Category includes areas, public or private, which are designated for active and passive community (not neighborhood) recreation purposes including locations containing natural features and those that are convenient to residents.

Public Facility Category

Mapping Criteria: The Public Facility Category includes areas of major facilities that serve a large portion of the County, the entire County, or that include service areas beyond the County such as, but not limited to, landfills, power plants, major or new power easements, and regional potable water and wastewater treatment facilities.

Planned Development District Category

Mapping Criteria: The Planned Development District includes properties specified in the following individual approved Planned Development Districts (PDDs) with an area specific set of criteria and strategies for development:

- (1) I-75/SR 50 PDD;
- (2) Airport PDD;
- (3) World Woods PDD;
- (4) Hickory Hill PDD;
- (5) Brooksville Regional Medical Center PDD;
- (6) Quarry Preserve PDD;
- (7) South Brooksville PDD;
- (8) Spring Center PDD.

Future Land Use Map Summary

This table is a summary of strategies contained in the Future Land Use Element and is intended for guidance purposes only.

RESIDENTIAL Objective 1.04B			
J			
	22 Dwelling Units Per		
	Gross Acre (DU/GA)		
Single-Family Housing:		Average overall density of 2.5 - 5.4 DU/Gross Acre	
Multi-Family Housing:		Average overall density of 7.5 - 22 DU/Gross Acre	
Mobile Home Park:		Average overall density of 2.5 - 5.4 DU/Gross Acre	
RURAL Objective 1.0	4C		
A oriculture: a oricultura	al commercial· agri-industr	ial; recreation; agritourism; residential land	
	r; certain commercial uses		
	0.1.0. 111 11.1.0	Density exception for parcels of 40 acres	
	0.1 Dwelling Units Per Gross Acre (DU/GA)	or less in single ownership as of January 1,1990 - See Strategy 1.04C(1)	
	2 Dwelling Units Per		
Rural Infill Areas:	Gross Acre (DU/GA)	Minimum parcel size of 21,500 square feet	
1,320-Foot Transition Zone:	Appropriate for a logical transition from Residential Category to Rural Category		
		Applies to communities described in	
Historic Rural	2 Dwelling Units Per	Strategy 1.04C(7); Existing lots of record	
Communities:	Gross Acre (DU/GA)	may develop regardless of size
