Pursuant to the Transportation Disadvantaged Local Coordinating Board Bylaws, the Board shall hold a meeting at the beginning of the calendar year for the purpose of electing a Vice-Chairman by a majority vote from the quorum present. The Chairman is appointed by MPO Board. The Citrus County Board of County Commissioners has requested Commissioner Ruthie Davis Schlabach continue to serve as the LCB Chairman for 2022.

In the event of the Chair's absence, or at the direction of the Chair, the Vice-Chair shall assume the duties of the Chair and conduct the meetings.

**Motion:** A motion to elect Mr. David Douglas as Vice-Chair of the Citrus LCB for the 2022 calendar year was made by Ms. Ginger West and seconded by Ms. Deirdre Barrett-LaBelle. The motion passed unanimously.

## 2. Letter from the Citrus BOCC to the Hernando/Citrus MPO, and Resolution from the MPO to the Commission for the Transportation Disadvantaged (CTD)

Citrus County is the designated CTC providing transportation disadvantaged services to citizens of the County. As the CTC, Citrus County provides these services pursuant to a Memorandum of Agreement (MOA) with the Commission for the Transportation Disadvantaged (CTD). The MOA covers a five year period and will expire on June 30, 2022.

The Hernando/Citrus MPO as the Designated Official Planning Agency (DOPA) for Citrus County is tasked with recommending to the CTD a single CTC to provide transportation services (Chapter 427, Florida Statutes). Because the CTC is a governmental agency, a formal bid process is not required if the CTC is able and willing to continue to provide the services. On January 4, 2022, the Citrus County Board of County Commissioners provided a Letter of Intent to the MPO to continue as the CTC for Citrus County.

Citrus County has the appropriate personnel, financial capacity, vehicle and equipment resources, experience, and qualifications to serve the transportation disadvantaged population. A resolution was prepared recommending Citrus County continue as the CTC for another 5 year time period (July 1, 2022-June 30, 2027) for consideration by the MPO at their February 3, 2022, meeting.

**Motion:** A motion to support the MPO's recommendation to the CTD that Citrus County continue as the CTC provider was made by Ms. Ginger West and seconded by Ms. Christine Mestrovich. The motion passed unanimously.

## 3. By-laws Adoption

The Commission for the Transportation Disadvantaged requires that the LCB review and approve their bylaws on an annual basis. Staff presented the bylaws with proposed changes. Ms. Dagenhart also told the LCB about a change that the Hernando County TDLCB wanted added into the bylaws regarding who would be notified when agency appointees had three (3) unexcused absences.

**Motion:** A motion to approve the bylaws with the proposed changes, and the request to add the following statement in Article V. Terms, Resignation and Training: : "If that voting member is an agency representative rather than a citizen member, the DOPA shall send written communication to the agency head, Speaker of the Florida House of Representatives, and the Florida Senate President to report the three consecutive un-excused absences and request a recommendation for a replacement to be appointed by that agency"; was made by Mr. Bud Osborne and seconded by Ms. Elizabeth Watson. The motion passed unanimously.

## 4. Election of a Grievance Committee

A Grievance Committee is appointed at the first meeting of the new calendar year. The committee would meet on an as-needed basis to address service or policy issue grievances. The amended by-laws state that there should be five members on the Grievance Committee, with one of the five serving as an alternate. A Chair and a Vice-Chair should also be designated for this committee.

- Motion: A motion to reappoint Mr. David Douglas to the 2022 grievance committee as the Chair was made by Mr. Bud Osborne and seconded by Ms. Ginger West. The motion passed unanimously.
- Motion: A motion to reappoint Mr. William Burda to the 2022 grievance committee as the Vice-Chair was made by Mr. David Douglas and seconded by Ms. Deirdre Barrett-LaBelle. The motion passed unanimously.

## STATE OF FLORIDA COMMISSION FOR THE TRANSPORTATION DISADVANTAGED **MEMORANDUM OF AGREEMENT**

This Memorandum of Agreement is between the COMMISSION FOR THE TRANSPORTATION DISADVANTAGED, hereby referred to as the "Commission," and

This Agreement is made in consideration of the mutual benefits to both parties; said consideration acknowledged hereto by the parties as good and valuable consideration.

The Parties Agree:

- I. The Coordinator Shall:
  - A. Become and remain totally apprised of all of the Transportation Disadvantaged resources available or planned in their designated service area. This knowledge will be used to plan, coordinate, and implement the most cost effective transportation disadvantaged transit system possible under the economic and other conditions that exist in the designated service area.
  - B. Plan and work with Community Transportation Coordinators in adjacent and other areas of the state to coordinate the provision of community trips that might be handled at a lower overall cost to the community by another Coordinator. This includes honoring any Commission-approved statewide certification program that allows for intercounty transportation opportunities.

- G. Retain all financial records, supporting documents, statistical records, and any other documents pertinent to this Agreement for a period of five (5) years after termination of this Agreement. If an audit has been initiated and audit findings have not been resolved at the end of five (5) years, the records shall be retained until resolution of the audit findings. The Coordinator shall assure that these records shall be subject to inspection, review, or audit at all reasonable times by persons duly authorized by the Commission or this Agreement. They shall have full access to and the right to examine any of the said records and documents during the retention period.

  - 2. Agreeing that compliance with this assurance constitutes a condition of continued receipt of or benefit from federal financial assistance, and that it is binding upon the Coordinator, its successors, subcontractors, transferee, and assignees for the period during which such assistance is provided. Assure that all operators, subcontractors, subgrantee, or others with whom the Coordinator arranges to provide services or benefits to participants or employees in connection with any of its programs and activities are not discriminating against those participants or employees in violation of the above statutes, regulations, guidelines, and standards. In the event of failure to comply, the Coordinator agrees that the Commission may, at its discretion, seek a court order requiring compliance with the terms of this assurance or seek other appropriate judicial or administrative relief, to include assistance being terminated and further assistance being denied.
- L. To the extent allowed by Section 768.28, Florida Statutes, and only to the monetary and other limitations contained therein, indemnify and hold harmless the Commission and all of the Commission's members, officers, agents, and employees; purchasing agency/entity officers, agents, and employees; and the local, state, and federal governments from any claim, loss, damage, cost, charge or expense arising out of any act, action, neglect or omission by the Coordinator during the performance of this Agreement, whether direct or indirect, and whether to any person or property to which the Commission or said parties may be subject, except that neither the Coordinator nor any of its sub-contractors will be liable under this section for damages arising out of injury or damage to persons or property directly caused or resulting from the sole negligence of the Commission or any of its members, officers, agents or employees; purchasing agency/entity, officers, agents, and employees; and local, state, or federal governments. Nothing herein is intended to serve as a waiver of sovereign immunity by any agency/entity or Coordinator to which sovereign immunity may be applicable. # DEVELOPMENT PLAN

### Introduction to the Service Area

The Citrus County Transit System (CCT) operates a demand-response door-to-door bus service for residents of the County. This para transit service provides a transportation option to the county's transportation disadvantaged population (elderly, disabled, and economically disadvantaged) a potential alternative to single-occupancy driving along with a deviated fixed route linking Beverly Hills, Lecanto, Inverness, Crystal River, Hernando, and Floral City.

CCT operates 25 buses and vans with an average of <del>8,407</del> 3100 trips a month (post-COVID). The transit system has been in operation since 1978 under the County's Community Services. CCT's current para-transit bus service is considered sufficient to serve the County's generally rural development pattern and density.

CCT's service satisfies the County's Transportation Disadvantaged Services Program which was developed based on Rule 41-2, Florida Administrative Code, and Chapter 427, Florida Statutes. The **Hernando/Citrus Metropolitan Planning Organization** is the Designated Official Planning Agency for the purposes of implementing the County's Transportation Disadvantaged Services program and the BOCC approves the CCT's annual funding and operating budget. The County's Community Transportation Coordinator (CTC) is currently filled by the CCT's director.

Aside from the BOCC, a local Transportation Disadvantaged Coordinating Board also gives guidance to the planning and operation of CCT. The local coordinating board is comprised of citizen volunteers representing the elderly, disabled, economically disadvantaged, military veterans, and Citrus County citizens at large. The local coordinating board also includes representatives from the County School Board, the Florida Department of Transportation (FDOT), the Department of Children and Families, and the Labor and Employment Services Sector.

CCT is supported by various funding sources from the Federal Transportation Administration, the State of Florida, and the County. The Federal Transportation Administration funding is derived from 5307Urbanized Area Formula Grants, State funding consists of the FDOT 5310 and 5311 grants, and funds from the Florida Commission for the Transportation Disadvantaged. The County provides matching funds for the system's operation from the general fund.

### Background of the TD Program

The transportation disadvantaged are defined in Chapter 427, Florida Statutes, as: "Those persons who because of physical or mental disability, income, status, or age are unable to transport themselves or purchase transportation and are, therefore, dependent upon others to obtain access to health care, employment, education, shopping, social activities, or other life-sustaining activities, or children who are disabled or high-risk or at-risk as defined in Section 411.202, Florida Statutes".

Florida's Transportation Disadvantaged Program began in 1979 with the adoption of Chapter 427, Florida Statutes. The Florida Legislature adopted this legislation to provide transportation disadvantaged services in a coordinated fashion.

In 1989, the Florida Legislature reviewed Chapter 427, Florida Statutes according to the State's Regulatory Sunset Act (Chapter 11.61, Florida Statutes). During this legislative review, the Legislature decided to reenact chapter 427, Florida Statutes (FS) with several revisions.

In 1990, Rule 41-2 of the Florida Administrative Code (FAC) was adopted to implement the provision of

Chapter 427. In addition, Rule 41-2 of the FAC assigns the Commission for the Transportation Disadvantaged with the responsibility to accomplish the coordination of transportation services provided to the transportation disadvantaged.

The following sections discuss each of the major components of the Transportation Disadvantaged program.

### Commission for the Transportation Disadvantaged

The Commission for the Transportation Disadvantaged is independent and reports to the Governor and the Legislature. Chapter 427, FS states that:

"The purpose of the Commission is to accomplish the coordination of transportation services to the transportation disadvantaged".

### The Commission currently consists of the following members:

- The Secretary of the Department of Transportation or the Secretary's designee.
- The Secretary of the Department of Children and Families or the Secretary's designee.
- The Commission of Education or the Commissioner's designee.
- The Director of the Agency for Health Care Administration or the Director's designee.
- The Secretary of the Department of Labor and Employment Security or the Secretary's designee.
- The Executive Director of the Department of Veteran's Affairs or the Executive Director's designee.
- A representative of the Florida Association for Community Action, who shall serve at the pleasure of that association.
- A person over the age of sixty, who is a member of a recognized statewide organization representing elderly Floridian.
- A person with a disability, who is a member of a recognized statewide organization representing Floridians with disabilities.
- Two citizen advocates, one representing rural citizens and one representing urban citizens.
- A representative of the Community Transportation Coordinators.
- A representative of the Early Childhood Council.
- The Secretary of the Department of Elder Affairs or the Secretary's designee.
- A representative of the Florida Transit Association, who shall serve at the pleasure of that association.
- Six representatives of current private for profit or private not-for-profit transportation operators.
- Six representatives of the non-transportation business community.

The Governor appoints representatives for Persons with Disabilities, the Elderly, Community Transportation Coordinators, and Citizen Advocates (two) for four-year terms. The Commissioner of Agriculture and Consumer Services appoints the Private For-Profit Operator representatives. The President of the Senate appoints three of the non-transportation business community representatives and the Speaker of the House of Representatives appoints the other three non-transportation business representatives. The remaining members serve without a fixed term.

The Chairperson and Vice-Chairperson of the Commission are elected annually by the Commission members.

# COMMUNITY TRANSPORTATION COORDINATOR DESIGNATION / HISTORY

### **Designated Official Planning Agency**

The designated official planning agency is responsible for transportation disadvantaged planning in a given area. In the urbanized areas of the state, the planning agencies are metropolitan planning organizations (MPOs). In the rural areas of the state, organizations that are eligible to be planning agencies are:

- County or city governments.
- Regional planning councils.
- Metropolitan planning organizations
- Local planning organizations who are currently performing planning activities in the service area.

### **Designation Date / History**

Citrus County's Public Transit System, Citrus County Transit (CCT) originated in 1978, and is operated under the County's Community Services Department. The CCT was most recently re-designated as the CTC effective July 1, 2017-June 30, 2022.

In August of 1990, the Citrus County BOCC accepted the position of Designated Official Planning Agency for the purposes of implementing the County's Transportation Disadvantaged Services Program, pursuant to Rule 41-2, FAC, and Chapter 427, FS. The Florida Transportation Disadvantaged Program is administered by the Florida Commission for the Transportation Disadvantaged. Effective July 1, 2018, the Hernando/Citrus Metropolitan Organization became the Designated Official Planning Agency for Citrus County

A local Transportation Disadvantaged Coordinating Board was organized and chaired by a County Commissioner. The local Coordinating Board consists of citizen volunteers representing the elderly, disabled users of the transportation-disadvantaged program in the county, the economically disadvantaged, the military, the veterans, and the citizens at large.

A staff representative of the County School Board, the Florida Department of Transportation, the Department of Children and Families, and the Labor and Employment Services represents appropriate governmental agencies.

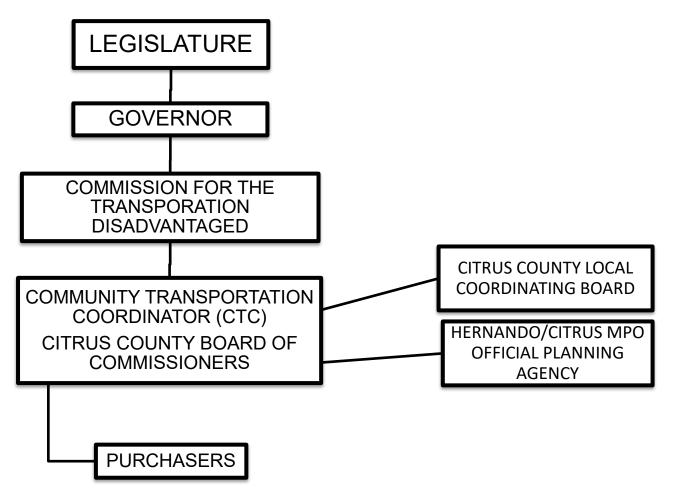

Citrus County Transit was appointed by the Florida Commission for the Transportation Disadvantaged to serve as Citrus County's Community Transportation Coordinator. The Florida Commission for the Transportation Disadvantaged has made grant funds available to support transit planning and the Citrus County Community Services Department, Transit Services is the recipient of those funds.

The Florida Commission for the Transportation Disadvantaged has also made grant funds available to implement the services to the transportation disadvantaged citizens of the County and these grant funds support capital equipment purchases and the operations of the program. The Citrus County Community Services Department, Transit Services is the recipient of these funds which are called "Transportation Disadvantaged Trip/Equipment Funds."

### CONSISTENCY REVIEW OF OTHER PLANS

### Local Government Comprehensive Plan(s)

### The local comprehensive planning process involves essentially four basic steps:

- 1. The collection and analysis of pertinent data concerning the physical and socio-economic characteristics of the study area.
- 2. The formulation of goals for future growth and development.
- 3. The development of objectives and policies guided by the goals which are the essence of the Comprehensive Plan.
- 4. The implementation of the Comprehensive Plan.

The Transportation Disadvantaged Service Plan is consistent, to the maximum extent feasible, with the Citrus County Comprehensive Plan/Public Transit Element.

### Regional Policy Plan(s)

### Commission for the Transportation Disadvantaged 5-Year/20-Year Plan

The Commission for the Transportation Disadvantaged 5-Year/20-Year Plan established goals, objectives, and a plan of action for the Transportation Disadvantaged Commission. The plan presents forecasts of the demand for transportation disadvantaged services, the cost of meeting the forecasted demand, the forecasts of future funding for transportation disadvantaged services and the approaches to balancing the supply and demand for these services. The plan also provides forecasts of the transportation disadvantaged population, the demand for trips, the number of trips supplied, the unmet demand for trips and the operating expenses.

The Transportation Disadvantaged Service Plan is consistent, to the maximum extent feasible, with the Commission for the Transportation Disadvantaged 5-Year/20-Year Plan.

# PUBLIC PARTICIPATION

The Transportation Disadvantaged Service Plan is approved annually by the Local Coordinating Board at an advertised public meeting. The Board is comprised of representatives from private and public agencies, as well as citizens. All meetings are open to the public.

### Service Area Profile / Demographics

Citrus County is located in west central Florida along the Gulf Coast and is bounded by the Withlacoochee River on the north and east, Hernando County on the south, and the Gulf of Mexico on the west. The surrounding counties include Levy to the northwest, Marion to the northeast, Sumter to the east and southeast, and Hernando to the south. The county contains approximately 773 square miles. There are two incorporated places: The City of Inverness on the East Side of the county, and the City of Crystal River on the West Side.

### Land Use

Citrus County is a largely rural county with the concentrations of population located in the Cities of Inverness and Crystal River and urbanized areas of Citrus Springs-Homosassa and Beverly Hills. The unincorporated areas of the county are in transition from rural and agricultural land uses to rural residential and suburban residential uses. A large portion of the county is developed as low density residential or is vacant but committed for residential use. Another major land use is conservation. Lands owned by the State of Florida, Southwest Florida Water Management District (SWFWMD), and other public lands comprise a major portion of the County. A tabulation of the land uses in Citrus County is presented on the next page.

# **POPULATION / COMPOSITION**

### Transportation Disadvantaged Population

The projected number of "transportation disadvantaged" persons (including low income, physically and mentally disabled, and elderly) living in Citrus County is shown in Table 7-1. More than 50% of the county's population is considered potentially transportation disadvantaged. This population group has been consistently growing in the last few years, again, indicating a potential need for an increased level of transit services in the future.

The elderly, age 60 and over, make up the majority of the transportation disadvantaged in Citrus County and the mentally handicapped constitutes a small portion of the people using the CCT system.

### Major Trip Generators/Attractors

The major transit attractors and generators within the county are comprised of retail and shopping areas and institutional and civic uses. Of the existing generators, 32 are located along US-19, US-41, and SR-44. The majority of passengers come from the Beverly Hills area and use the system extensively. The majority of all trips are to shopping centers or medical facilities. The most frequented destinations are the Inverness Regional Mall, Kings Bay Plaza in Crystal River, Crystal River Mall, and Meadowcrest Commercial Professional Development.

Increased transit needs to and from institutional facilities is expected as some not-for-profit institutions such as The Light House, Blind Americans, Inc. and expand operations.

### **Existing Transit Service**

The existing CCT system provides transit service throughout Citrus County as a demand-response para transit bus system. The system picks up riders anywhere within the county's 773 square-mile area and transports them to their planned destinations, in some cases for Veterans Services as far as Gainesville, Tampa and the Villages VA, and Social Security Office in Ocala.

Due to COVID, current service hours are from 6:00 a.m. to 5:30 6:00 p.m. Pre-COVID, service ran 5:45 A.M. to 7:00 P.M. While most service areas have transit service from Monday to Friday (except holidays), certain service areas such as Dunnellon and Ozello / Red Level/Citronelle are available only on select weekdays. Riders may call and make a reservation up to 14 days in advance, with a minimum of two day by noon advance notice. Same day service may be accommodated if scheduling is available to allow scheduling of routes and drivers. The following are the schedules of CCT's current transit service within each service area:

Citrus County Transit is a public transportation program available to everyone.

We provide door to door service. Reservations may be made up to 14 days, no later than two (2) business days, in advance. Cost: \$5 each way. \$1 transfer fee. Only one transfer allowed. Customers who meet certain criteria may be eligible for a reduced rate of \$3 each way with a \$1 transfer fee.-

CCT's operation is supported by various state and county funding mechanisms. In <del>2017</del> 2021, local funding accounted for approximately <del>20.5%</del> 9% of the operating expense of CCT. The remaining operation costs are funded by the Commission for the Transportation Disadvantaged and other state and federal funding programs, including:

- Section 5307 The Federal Transit Administration provides monies for operations and purchase of equipment. Received 5307 CARES ACT funding that reduced the local funding.
- Section 5311 FDOT provides monies for operations and the purchase of equipment. Received 5311 CARES ACT funding that reduced the local funding.
- Section 5339 FTA provides funds for the purchase of equipment and facilities.
- **Developmental Services** This program is sponsored by the Key Training Center for the mentally disabled. Under this program, the individuals are transported to and from the Key Training Center to their homes.
- Florida Commission for the Transportation Disadvantaged Operating costs are provided for transportation disadvantaged customers.

Because of the high percentage of transportation disadvantaged, fare box revenues do not account for a large percentage of the CCT's funding. In <del>2017</del> 2021, rider fares accounted for <del>3.91%</del> 0% of the total operational funding. Fares suspended in 2021 due to COVID.

### Age Distribution

Citrus County is considered one of the three counties with the largest percentage of older population per capita in the Nation. 50% 54% of the county's population is currently 55 years and older and the percentage of elderly population is expected to increase remain 54% through 2030 to 54%. Citrus County's aging population indicates a critical need to not only maintain but expand transit services in the future. ## CITRUS COUNTY TRANSPORTATION 2018 PROJECTED TRANSIT FLEET AND FACILITY NEEDS

Future transit needs were estimated using the constant ratio current growth rate method, with the assumption that the current relationship between the transit fleet and average monthly ridership will remain constant over time. The historic and projected number of buses needed through the year 2030 can be seen in Table 10: Citrus County Fleet Needs, Historic and Projected, 2016-2030.

All future transit plans depend on the availability of funding and the necessary population density to support the deviated fixed route system. More opportunities for state transit funding are available to support the deviated fixed route system when counties reach a population of more than 200,000 people.

### **Citrus County Additional Needs**

- 1. Expand fuel reserves
- 2. Bus stop shelters

### Transportation Plan Impacts on Public Transit

Highway and roadway improvements scheduled over the next 10-years to the year 2030 will have 2 types of impacts for CCT. The major improvements will result in short-term impacts and long-term impacts. All roadway improvements are identified in the County's 5 Year Capital Improvement Plan and Florida Department of Transportation's (FDOT) 5 Year Work Program.

The short-term "construction" impacts could result in minor delays and alternate routes during the construction of the new facilities. It is anticipated that these impacts could result in additional time being required to transport passengers. The length of delay will likely vary due to the demand response nature of the existing transit service. Coordination between the CCT and agencies involved in the roadway improvements is necessary to continue providing as efficient a program as possible. This effort should include, at a minimum, a 10-day notification of highway construction projects in the County.

The long-term impacts will be characterized by reduced traffic congestion levels and improved vehicle and transit operations. In addition, because of improvements in the roadway network, more routing options could potentially be made available where CCT service is currently not available. For instance, the potential extension of the Suncoast Parkway may create the opportunity to provide longer distance bus service and inter-county regional bus service.

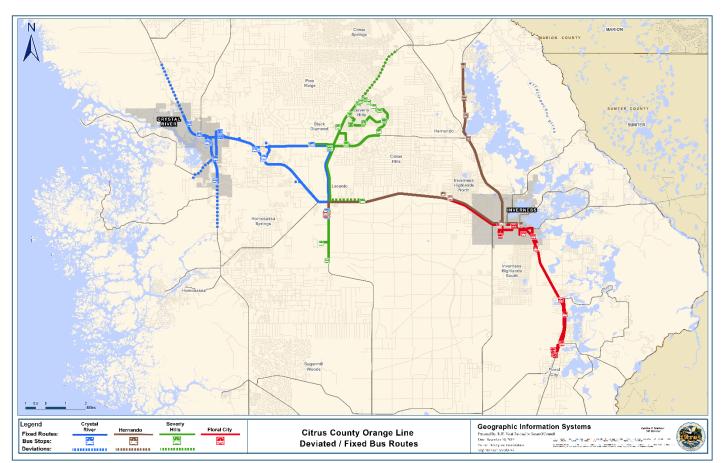

### Public Transit Plan

The population and population density of Citrus County has allowed CCT to develop a successful deviated fixed- route transit service. The public transit plan proposes the continued operation of the existing demand-response para transit service and expanding service geographic reach, increasing service hours, and increasing trip frequency to serve a larger percentage of the County's population.

In the longer-term, as the County's population continues to increase and as more transit funding opportunities are made available, the County should plan to increase the frequency of the deviated fixed route service.

### Orange Line Deviated Fixed Route Information

The County's land use element calls for encouraging mixed-uses and higher density development around nodes and major corridors. Following is the map of the Orange Line Deviated Fixed Route Service routes. The four different routes return to the Citrus County Transit Center six times per day in order to accommodate cross county trips. Suspended Deviated Fixed Route Services March 2020 due to COVID.

# BARRIERS TO COORDINATION

### The following barriers to coordination have been identified:

- Agencies that develop new programs without regard to transportation in the planning and/or budget phases. This places reliance on already scarce TD Trust Funds.
- Agencies developing new programs need to take transportation issues and associated costs into consideration in the initial stages of program planning. This might be improved through educational efforts that make agencies aware of the role that transportation or lack of transportation plays within such programs.
- Lack of dedicated funding sources for operating and capital expenses.
- Legislative changes could require more dollars to be allocated to transportation services.
- Stringent agency requirements, such as eligibility determinations, without financial assistance to provide the necessary staffing to perform the tasks associated with meeting said requirements.
- Forcing agencies to be responsible for determining who is eligible for transportation services (to include such things as frequency of travel, mode of travel, etc.) under their program would allow CTCs to concentrate on providing services and, thus, would allow for the provision of better and possibly additional services.
- Increasing cost of vehicles.
- The lengthy process to secure mobility devices causes delays to already constricted schedules.
- Agencies that do not accept established rates and/or are not paying the fully allocated operating trip cost for transportation services.

#### First Aid Policy CTD required

#### The following 10 Commission standards are adopted and are currently in place:

#### Accidents

It is the goal of the CTC to keep accidents to a minimum. CCT provides FTA approved training to all new drivers as well as in service training. Transportation Operators and Coordination Contractors of the CTC will be monitored to meet the same standard. Based on the reporting requirements of the AOR (chargeable accidents involving claims greater than or equal to \$1,000.00), and past records of accidents, the CTC will set a goal of no more than six (6) chargeable accidents per year. Incident / Accidents shall be reported to the Commission for Transportation Disadvantaged within seventy-two (72) hours (if over \$1,000.00 in property damage), and within 24 hours if there is a fatality involved pursuant to section 14.80 of the Transportation Disadvantaged Trip and Equipment Grant Agreement.

#### Advance Reservation Requirement

Reservations can be made up to 14 days in advance and are due to CCT no later than noon two (2) business days prior to the date transportation is needed. Reservations for Social Security Administration Offices in Ocala must be made by noon on Friday of the week preceding the scheduled trip.

#### Call Hold Time

All calls placed to CCT shall be placed in a queue and should not be on hold for longer than four (4) minutes. There is no monitoring tool in place for this standard.

#### Contract Monitoring

CCT will perform a biennial evaluation of contracted operators using the FDOT evaluation tool.

#### Driver Criminal Background Screening

Employment Level II Background Screening is completed on all applicants before becoming an employee of CCT. Transportation Operators and Coordination Contractors of the CTC will be monitored to meet the same standard.

#### First Aid/CPR

Citrus County Drivers are not required to be First Aid or CPR trained. CCT's policy is to use 911 in all situations per Citrus County Risk Management.

#### On Time Performance

CCT will strive to achieve an 85% on-time performance rate for all completed trips.

#### Pick Up Window

Passengers traveling with CCT will be picked up within one hour from the scheduled pick up and return times.

#### Public Transit Ridership

Most ambulatory and wheelchair trips within the service area are accommodated by public transit schedules.

#### Road Calls

There should be no less than 10,000 miles between road calls in a one (1) year period for CCT.

#### Service Effectiveness

Determined by Performance Measures as monitored by the Local Coordinating Board's evaluation of the independent report on the CTC.

## **GRIEVANCE PROCEDURES**

A. <u>Establishment</u> - It is the intent of the LCB (Local Coordinating Board) to encourage resolution of grievances at the lowest level and to educate passengers, funding agencies and any other interested parties about the grievance process(es).

A grievance committee is established under Article <del>IX</del> VII of the Citrus County Transportation Disadvantaged Coordinating Board by-laws and shall be applied as it becomes necessary under conditions described in Section D below.

- B. <u>Hearing vs. Hearing and Determining</u> There is a distinct difference between "hearing" a grievance and "hearing and determining" a grievance. There is no bar to a person or entity listening to or "hearing" a grievance. An entity may investigate a grievance as long as it does not impose requirements on third parties that are not supported by statue or contractual agreement. However, when an entity makes a determination of the rights, duties, privileges, benefits or legal relationships of a specified person or persons, it is exercising "adjudicative "or "determinative" powers. It should be noted that Chapter 427, F.S grants no "adjudicative" powers to any party or entity "hearing" a grievance.
- C. This section will delineate the difference between a formal grievance pursuant to Chapter 427 F.S. and Rule 41-2 F.A.C., and a service complaint.
  - 1. <u>Service Complaint</u>- service complaints are routine incidents that occur on a daily basis, and are reported to the driver, dispatcher or other individuals involved with the daily operations. Service complaints are to be resolved within a reasonable period of time and followed up by the CTC (Community Transportation Coordinator).

#### Service complaints may include but not limited to:

- I. Late trips (late pick-up and or late drop off)
- II. No-show by transit operator
- III. No-show by client
- IV. Client behavior
- V. Driver behavior
- VI. Service denial to client
- VII. Passenger discomfort
- 2. <u>Formal Grievance</u>- a formal grievance is a written complaint to document any concerns or an unresolved service complaint regarding the operation or administration of TD, (Transportation Disadvantaged), services by the CTC, DOPA (Designated Official Planning Agency), or LCB.

#### Formal Grievances may include but are not limited to:

- I. Chronic or reoccurring or unresolved service complaints
- II. Violations of specific laws governing the provision of TD services i.e., Charter 427
   F.S., Rule 41-2 FAC and accompanying documents,
- III. Sunshine Law and ADA
- IV. Contract disputes (agencies/operators)
- V. Bidding disputes
- VI. Agency compliance
- VII. Conflicts of interest
- VIII. Billing and or accounting procedures

- D. These procedures will apply to all service complaints and formal grievances brought to the attention of the CTC or the DOPA staff.
  - 1. Passengers who are trespassed from Citrus County Transit by law enforcement and have been identified as a safety issue are NOT eligible for the Grievance process.
  - 2. If a service complaint cannot be resolved after all efforts by the CTC to reach an amicable resolution, it may be treated as a formal grievance if it is submitted in writing to the CTC. All grievances must contain the following:
    - I. Name and Address of the complainant,
    - II. A statement of the grounds for the grievance with supporting documentation, made in a clear and concise manner.
    - III. An explanation of the relief desired by the complaint.

The CTC will issue a decision in writing, delivered via regular mail, no later than 20 working days after the formal grievance is filed with the CTC. The decision will give the complainant an explanation of the facts that led to the CTC's decision and will provide a method by which a resolution might be reached. Copies of all correspondence must be submitted to the LCB.

- 3. If an amicable resolution cannot be reached with the CTC, then the written grievance and the CTC's written report will be submitted to the Grievance Committee. The Grievance Committee must schedule a meeting at which the grievance will be heard, with the aggrieved party present. The grievance committee must respond in writing, by certified mail, to the complaint no later than 30 days after the meeting. If the majority of the grievance committee cannot satisfy the complainant or deems the complaint to be of a nature requiring the LCB's attention the matter will next be referred to the LCB.
- 4. The written grievance and written reports will be submitted to the LCB. The LCB shall meet with the aggrieved party and hear the grievance. The LCB shall have a maximum of 60 days to respond in writing, by certified mail, to the complainant.
- 5. If a resolution cannot be reached by the LCB, the written grievance and written reports will be submitted to the TDC, (Transportation Disadvantaged Commission). The TDC will review the written grievance and the written reports and will issue a written determination no later than sixty (60) days after its receipt of the case file. This written determination will be sent via Certified Mail to the complainant. Upon the TDC entering its determination, the TDC's direction will be followed, or the grievance matter will be closed with no further proceedings on the grievance at the County level.
- 6. At any time, an aggrieved party with proper standing may elect to seek recourse in other proceedings outside of this grievance process, through the Chapter 120, F.S., administrative hearing process or through the judicial system.

### COMMUNITY TRANSPORTATION COORDINATOR MONITORING PROCEDURES FOR OPERATIONS AND COORDINATION CONTRACTORS

DOT guidelines are followed to evaluate/monitor operators on a biennial basis. The procedure is called a "Bus Transit System Safety Review". The following guidelines are followed:

A safety review is an on-site assessment to determine if a bus transit system has adequate safety management controls in place and functioning that meet safety standards provided and incorporated by reference in Rule Chapter 14-90, F.A.C.

- 1. Safety reviews shall be conducted at least once every two (2) years at those bus transit systems defined in Rule 14-90.002(5) (10) and (13), F.A.C.
- 2. Each bus transit system shall be notified in writing, not less than three (3) weeks prior to a safety review. The District Public Transportation manager should coordinate scheduling and areas of review with the bus transit system prior to written notification. At the discretion of the District Public Transportation manager, additional reviews may be scheduled for selected bus transit systems, primarily for follow-up.
- 3. A safety review report shall be prepared within three (3) weeks subsequent to the completion of a review. The report shall state items reviewed, a description of the findings, and any corrective actions required. Also, indicate recognition in areas where exemplary compliance is demonstrated. A copy of the report shall be provided to the effected bus transit system and the central office safety program manager. Note: if the safety review finding indicates the continued operation, or a portion thereof, is posing a potential danger to passengers or public safety, the transit system shall be required to initiate and achieve corrective action to unsafe conditions before continuation of effected operations. #### Vehicle Number (either VIN or provider fleet number):

Type of Vehicle:	Minivan	Van		Bus (>22')

#### **Person Conducting Review:**

#### Date:

#### Review the owner's manual, check the stickers, or ask the driver the following:

- The lift must have a weight limit of at least 600 pounds.
- ☐ The lift must be equipped with an emergency back-up system (in case of loss of power to vehicle). Is the pole present?
- ☐ The lift must be "interlocked" with the brakes, transmission, or the door, so the lift will not move unless the interlock is engaged. Ensure the interlock is working correctly.

#### Have the driver lower the lift to the ground:

- Controls to operate the lift must require constant pressure.
- Controls must allow the up/down cycle to be reversed without causing the platform to "stow" while occupied.
- Sufficient lighting shall be provided in the step well or doorway next to the driver, and illuminate the street surface around the lift, the lighting should activate when the door/lift is in motion. Turn light switch on, to ensure lighting is working properly.

#### Once the lift is on the ground, review the following:

☐ Must have an inner barrier to prevent the mobility aid from rolling off the side closest to the vehicle until the platform is fully raised.

- $\Box$  Side barriers must be at least 1 ½ inches high.
- ☐ The outer barrier must be sufficient to prevent a wheelchair from riding over it.
- $\Box$  The platform must be slip-resistant.
- $\Box$  Gaps between the platform and any barrier must be no more than 5/8 of an inch.
- $\Box$  The lift must have two handrails.
- $\Box$  The handrails must be 30-38 inches above the platform surface.
- $\Box$  The handrails must have a useable grasping area of 8 inches, and must be at least 1 <sup>1</sup>/<sub>2</sub> inches wide and have sufficient knuckle clearance.
- ☐ The platform must be at least 28 1/2 inches wide measured at the platform surface, and 30 inches wide and 48 inches long measured 2 inches above the platform surface.

If the ramp is not flush with the ground, for each inch off the ground the ramp must be 8 inches long.

Lifts may be marked to identify the preferred standing position (suggested, not required)

#### Have the driver bring the lift up to the fully raised position (but not stowed):

- When in the fully raised position, the platform surface must be horizontally within 5/8 inch of the floor of the vehicle.
- ☐ The platform must not deflect more than 3 degrees in any direction. To test this, stand on the edge of the platform and carefully jump up and down to see how far the lift sways.
- ☐ The lift must be designed to allow boarding in either direction.

#### While inside the vehicle:

Each securement system must have a clear floor area of 30 inches wide by 48 inches long.

☐ The securement system must accommodate all common wheelchairs and mobility aids.

☐ The securement system must keep mobility aids from moving no more than 2 inches in any direction.

A seat belt and shoulder harness must be provided for each securement position, and must be separate from the security system of the mobility aid.

#### Vehicles under 22 feet must have:

One securement system that can be either forward or rear-facing.

Overhead clearance must be at least 56 inches. This includes the height of doors, the interior height along the path of travel, and the platform of the lift to the top of the door.

#### Vehicles over 22 feet must have:

- ☐ Must have 2 securement systems, and one must be forward-facing, the other can be either forward or rear-facing.
- □ Overhead clearance must be at least 68 inches. This includes the height of doors, the interior height along the path of travel, and the platform of the lift to the top of the door.
- Aisles, steps, and floor areas must be slip resistant.
- ☐ Steps or boarding edges of lift platforms must have a band of color which contrasts with the step/floor surface.
