Discussion ensued regarding the care and maintenance of the bus fleet, and the electrostatic sprayers that are used on a daily basis to disinfect the buses.

Commissioner Allocco stated that the on time service was a major accomplishment and meant that there was community buy in.

Discussion ensued regarding the Flamingo Cards. Mr. DeGeorge indicated that Pasco County does not use them. They are convenient for the riders, they can download the app, one time purchase of the card which can be reloaded with a debit or credit card.

LIMITED ENGLISH PROFICIENCY

Introduction

The purpose of this Limited English Proficiency (LEP) policy guidance is to clarify the responsibilities of the MPO as a recipient of federal financial assistance from the U.S. Department of Transportation (DOT) and to assist the MPO in fulfilling its responsibility to provide meaningful access to essential MPO programs and activities for those not able to read or speak English. . It was prepared in furtherance of Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d, et seq., and other federal and state authorities to ensure that no person shall be subjected to discrimination on the basis of race, color, or national origin under any MPO program or activity that receives federal financial assistance.

ENVIRONMENTAL JUSTICE

Executive Order 13166

Executive Order 13166 "Improving Access to Services for Persons With Limited English Proficiency," reprinted at 65 FR 50121 (August 16, 2000), directs each Federal agency that is subject to the requirements of Title VI to publish guidance for its respective recipients clarifying that obligation. Executive Order 13166 further directs that all such guidance documents be consistent with the compliance standards and framework detailed in the Department of Justice's (DOJ's) Policy Guidance entitled "Enforcement of Title VI of the Civil Rights Act of 1964--National Origin Discrimination Against Persons With Limited English Proficiency." (See 65 FR 50123, August 16, 2000, DOJ's General LEP Guidance). Different treatment based upon a person's inability to speak, read, write, or understand English may be a type of national origin discrimination.

Executive Order 13166 applies to all federal agencies and subsequent DOT and modal administration orders included all programs and operations of entities that receive funding from the federal government, including state agencies, local agencies and governments such as the MPO, private and non-profit entities, and subrecipients.

PLAN SUMMARY

The Hernando/Citrus MPO has developed this Limited English Proficiency Plan (LEP) to help identify reasonable steps to provide meaningful language assistance for LEP persons seeking access to MPO programs. A Limited English Proficiency person is one who does not speak English as their primary language and who has a limited ability to read, speak, write, or understand English.

This plan details the procedures on how to identify a person who may need language assistance, the ways in which assistance may be provided, training staff, how to notify LEP persons that assistance is available, and information for future plan updates.

In developing the plan while determining the MPO's extent of obligation to provide LEP services, the

MPO undertook a U.S. Department of Transportation four factor LEP analysis which considers the following: 1) The number or proportion of LEP persons eligible in the County to be served or likely to encounter an MPO program, activity, or service; 2) the frequency with which LEP individuals come in contact with an MPO program; 3) the nature and importance of the program, activity or service provided by the MPO to the LEP population; and 4) the resources available to the MPO and overall costs to provide LEP assistance. A brief description of these considerations is provided in the following section.

LEP FOUR FACTOR ANALYSIS

1. The number or proportion of LEP persons eligible to be served or likely to encounter an MPO program, activity or service

The MPO examined the US Census Bureau's 2016-2020 American Community Survey (ACS) data and was able to determine that of the 316,286 residents within the Hernando/Citrus MPO Planning area over the age of 5 years old, 2.6% describe themselves as speaking English less than "very well", the majority of whom are Spanish speakers.

The MPO assesses the frequency at which staff has or could possibly have contact with LEP persons. This includes documenting phone inquiries and surveying public meeting attendees. Since the adoption of the LEP plan on September 18, 2018, the MPO recorded no requests for an interpreter in any language and no requests for translated MPO documents.

2. The nature and importance of the program, activity or services provided by the MPO to LEP community.

The MPO evaluates the need for any formal outreach efforts to identify those MPO programs would be of importance to a Spanish-speaking LEP person. One identified program is the paratransit and fixed-route transit systems to help accommodate the Spanish speaking LEP population. The transit operators in both counties have translated their system route maps and brochures. As there are relatively small concentrations of Spanish-speaking LEP persons in each county, MPO is able to assess program impacts and translate any of its documents and brochures into Spanish, as needed.

Many Spanish-speaking Outreach Operation clients are economically disadvantaged and receive medical services through Medicaid. The MPO's coordinates its Transportation Disadvantaged Program (TD) thru Mid Florida Community Services, Inc., in Hernando County and the Citrus Connection in Citrus County. The TD Program was also identified as a potential provider of important services for the Spanish-speaking LEP person.

3. The resources available to the MPO and overall costs

The MPO assessed its available resources that could be used for providing LEP assistance. This included identifying staff and volunteer language interpreters are readily available, how much a professional interpreter and translation service would cost, which documents should be translated, available organizations the MPO could partner with for outreach/translation efforts, examining which financial and in-kind sources could be used for assistance, and what level of staff training is needed.

After analyzing the four factors, the MPO developed the LEP plan which provides a reasonable degree of services for LEP populations in the service area.

HOW TO IDENTIFY AN LEP PERSON WHO NEEDS LANGUAGE ASSISTANCE

Tools to help identify persons who may need language assistance

- Examine records requests for language assistance from past meetings and events to anticipate the possible need for assistance at upcoming meetings;
- When MPO sponsored workshops or conferences are held, set up a sign-in sheet table, have a staff member greet and briefly speak to each attendee. To informally gauge the attendee's ability to speak and understand English, ask a question that requires a full sentence reply;
- Have the Census Bureau's "I Speak Cards" at the workshop or conference sign-in table. While staff may not be able to provide translation assistance at a particular meeting, the cards can be an excellent tool to identify language needs for future meetings. Also, have the cards available at the MPO office reception area and Transportation Disadvantaged Program office's walk-in counter; and;
- Post a notice of available language assistance at MPO reception area.

LANGUAGE ASSISTANCE MEASURES

Staff may be able to assist with written communications and small MPO document translation requests from LEP persons. Hernando County web pages may be translated by right clicking the page and selecting "Translate with Bing". Citrus County web pages may be translated by scrolling to the bottom of the page and clicking "TRANSLATE" with Bing.

The following MPO documents are currently available in Spanish: Transportation Disadvantaged Program brochure and application, THE Bus and Citrus Connection (fixed-route transit) routes and information, as well as the Title VI discrimination complaint form.

MPO STAFF TRAINING

All MPO staff will be provided with the LEP Plan and will be educated on procedures and services available. This information will also be part of the MPO staff orientation process for new hires.

Training Topics

- Understanding the Title VI LEP responsibilities;
- What language assistance services the MPO offers;
- Use of LEP "I Speak Cards;"
- How to access a staff interpreter;
- Documentation of language assistance requests;
- How to handle a complaint;

- The importance of educating subrecipients on the MPO's LEP program responsibilities and their obligation to provide language assistance.

PROVIDING NOTICE OF AVAILABLE LANGUAGE SERVICE TO LEP PERSONS

When an interpreter is needed, in person or on the telephone, first determine what language is required. If the required language is not available or if a formal interpretation is required, staff shall use the telephone interpreter service. Language Line Interpreter Services are available 24 hours a day, 7 days a week at 1-800-752-6096.

Information will be provided on the MPO website, in legal advertisements regarding language services available.

OUTREACH TECHNIQUES

- If staff knows that they will be presenting a topic that could be of potential importance to an LEP person or if staff will be hosting a meeting or a workshop in a geographic location with a known concentration of LEP persons, have meeting notices, fliers, advertisements, and agendas printed in an alternative language, such as Spanish.
- When running a general public meeting notice, staff should insert the clause **“Un traductor del idioma español estará disponible.”** This means, “A Spanish translator will be available.” Or if not sure of the need, staff should insert this clause, **“Si usted necesita la ayuda de un traductor del idioma español, por favor comuníquese con la** (insert staff name) **al teléfono (###-###-###), cuando menos 48 horas antes de la junta,”** which asks persons who need Spanish language assistance to make arrangements with the MPO within two days of the publication notice.

MONITORING AND UPDATING THE LEP PLAN

This plan is designed to be flexible and is one that can be easily updated. At a minimum, the MPO will follow the Title VI Program update schedule for the LEP Plan.

Plan components to monitor

- How many LEP persons were encountered?
- Were their needs met?
- What is the current LEP population in Hernando and Citrus Counties?
- Has there been a change in the types of languages where translation services are needed?
- Is there still a need for continued language assistance for previously identified MPO programs? Are there other programs that should be included?
- Have the MPO's available resources, such as technology, staff, and financial costs changed?

- Has the MPO fulfilled the goals of the LEP Plan?
- Were any complaints received?

DISSEMINATION OF THE MPO LIMITED ENGLISH PROFICIENCY PLAN

The LEP plan is available on our website at: www.hernandocitrusmpo.us.

Any person, including social service, non-profit, and law enforcement agencies and other community partners with internet access will be able to access the plan. For those without personal Internet service, all Hernando County libraries offer free Internet access. Copies of the LEP Plan will be provided to the Hernando and Citrus County Office of Health and Human Resources, the Florida Department of Transportation, Federal Highway Administration, the Federal Transit Administration, and any person or agency requesting a copy. Each MPO subrecipient and program participants will be provided a copy and will be educated on the importance of providing language assistance. ABOUT THE HERNANDO/CITRUS MPO

The Hernando/Citrus MPO was created in 2014 and is responsible for facilitating and coordinating regional transportation planning activities in Hernando County, Citrus County, and the cities of Inverness, Crystal River and Brooksville. MPOs exist throughout the U.S. and began with the development of the Interstate Highway System. To carry out federal transportation planning requirements, Title 23 of the United States Code (USC) provides that a metropolitan planning organization be designated for each urbanized area with a population of more than 50,000 individuals.

With the Federal Aid Highway Act of 1962, Congress passed legislation making urban transportation planning a condition for receipt of federal highway funds in urban areas. This legislation encouraged “a *Continuing, Comprehensive* transportation planning process carried on *Cooperatively* by the states and local communities (referred to as the 3-C’s)”. The MPO is responsible for ensuring that federal and state dollars spent on existing and future transportation projects and programs are based on the 3-C’s planning process. Each urban area in the United States has a MPO which acts as a liaison between local communities, their citizens, and the state departments of transportation (DOTs). MPOs are important because they direct how and where available state and federal dollars for transportation improvements will be spent.

Committees were established to assist the MPO in the development of plans and programs while offering additional opportunities for the public to participate. The committees serve at the pleasure of the MPO. The Hernando/Citrus MPO has a Technical Advisory Committee (TAC), a Citizens Advisory Committee (CAC), a Bicycle

Pedestrian Advisory Committee (BPAC) and two Transportation Disadvantaged Local Coordinating Boards.

PURPOSE OF THE PUBLIC PARTICIPATION PLAN

The Hernando/Citrus Metropolitan Planning Organization (MPO) Public Participation Plan was initially adopted on September 30, 2014, and updated on September 18, 2018. The plan is periodically reviewed to ensure consistency with applicable regulations, and changes are appropriate. The Hernando/Citrus MPO encourages early and continuing participation by residents in the transportation planning and decision-making process. Public outreach efforts are intended to provide all members of the community opportunities to participate.

The PPP provides guidance to the public regarding when and how to participate in the transportation planning and decision making process. The MPO makes every effort to make our plans and programs easy to understand by the general public by using common terms that are familiar to the layperson.

The MPO must provide communities, affected public agencies, representatives of public transportation employees, freight shippers, providers of freight transportation services, private providers of transportation, representatives of users of public transportation, representatives of users of pedestrian walkways and bicycle transportation facilities, representatives of and those with disabilities, representatives and members of traditionally underserved, minority and low income communities, , and other interested parties with a reasonable opportunity to comment on the Long Range Transportation Plan (LRTP), Transportation Improvement Program (TIP) and major revisions.

FEDERAL NONDISCRIMINATION COMPLIANCE REQUIREMENTS

The Hernando/Citrus MPO complies with the following federal requirements:

Title VI Of the Civil Rights Act Of 1964

Title VI of the Civil Rights Act of 1964 (42 USC. 2000d) prohibits discrimination on the basis of race, color, and national origin in programs and activities receiving federal financial assistance. In addition, the MPO complies with other federal and state authorities and does not deny the benefits of, exclude from participation in or discriminate against anyone on the basis of race, color, national origin, sex, age, disability, religion, income or family status. Any person who believes themselves subject of any unlawful discriminatory practice under Title VI or other nondiscrimination authorities may file a complaint with the Title VI Coordinator for the MPO.

Americans With Disabilities Act (ADA)

The Americans with Disabilities Act of 1990 (ADA) prohibits the exclusion of persons with disabilities from participation in services, programs, or activities of a public entity which include the MPO. The MPO is responsible for providing reasonable accommodations to those with disabilities who require special services to access information or participation in MPO activities. (42 U.S.C. 12131-12134)

Environmental Justice – Executive Order 1288

Addressing requirements for Federal actions to address environmental justice concerns for low-income and minority populations. The focus of the order was to:

- identify and address the disproportionately high and adverse human health or environmental effects of their actions on minority and low income populations to the greatest extent practicable by law
- Develop a strategy for implementing environmental justice
- Promote nondiscrimination in federal programs that affect human health and the environment, as well as provide minority and low-income communities access to public information and public participation

Limited English Proficiency – Executive Order 13166

The purpose of the order is to improve access to services for persons with Limited English Proficiency (LEP). The order requires agencies that receive federal funds to develop plans so that people for whom English is not their second language or have limited ability to read, speak, write, or understand English can have meaningful access to services provided.

MPO BOARDS, COMMITTEES AND STAFF

Hernando/Citrus MPO Board

The MPO Board is a transportation policy-making board comprised of nine (9) elected officials representing the local governments within the MPO area, and a non-voting advisor from the Florida Department of Transportation.

The primary role of the Hernando/Citrus MPO is to ensure existing and future expenditures of governmental funds for transportation projects and programs within the MPO area are developed based on a continuing, cooperative, and comprehensive (3-C) planning process. The MPO meetings are typically scheduled the first Thursday of the month and begin at 1:30 p.m. Meetings alternate between Hernando and Citrus County on an annual basis. Please check our website for specific meeting dates and times.

Transportation Disadvantaged Local Coordinating Boards

The Transportation Disadvantaged Local Coordinating Boards oversee the activities of the Community Transportation Coordinator (CTC) which provides services to the transportation disadvantaged pursuant to Chapter 427, Florida Statutes. Each County in the MPO area has a Transportation Disadvantaged Local Coordinating Board. Hernando County's Board is referred to as the "TDLCB", Citrus County's Board as the "LCB".

The MPO Board serves as the Designated Official Planning Agency "DOPA" for both the TDLCB and LCB providing administrative support to the program. The Board positions are established by Florida Administrative Code and include agency and citizen representatives appointed by the DOPA.

The Public Participation policies in this document are followed for meetings of the Transportation Disadvantaged Local Coordinating Boards. Minimum public notices in the local jurisdictions' newspaper are published a minimum of 5-10 days prior to the meetings.

TDLCB meeting are held quarterly at the Hernando County Building Training Facility at 1661 Blaise Drive in Brooksville beginning at 10:00 a.m. LCB meetings are held quarterly at the Lecanto Government Center, 3600 W Sovereign Path, Room 166, Lecanto, FL beginning at 10:30 a.m.

Please check our website for specific meeting dates at: www.hernandocitrusmpo.us.

MPO Committees

Committee meetings are held at least quarterly with additional meetings as needed. Locations alternate between the Hernando County Building Training Facility at 1661 Blaise Drive in Brooksville, and the Lecanto Government Center, 3600 W Sovereign Path, Room 166, Lecanto, FL. Meetings are typically the 4th Wednesday of the month. The TAC meets at 10:00 a.m., CAC at 1:00 p.m., and BPAC at 3:00 p.m. Please check our website for specific dates, times and locations.

Technical Advisory Committee (TAC)

Membership of the TAC includes planners, engineers, transit and other technical specialty representatives from the various governments and agencies in the Hernando/Citrus MPO area. It is important for the TAC to be involved in the development of MPO plans and programs to ensure consistency with local programs and provide technical assistance as needed.

Citizens Advisory Committee (CAC)

To gain diverse input regarding transportation plans and programs, members of the Hernando/Citrus CAC comprise a cross section of people including transit users, older citizens, citizens with physical challenges, and citizens of the counties and cities in the MPO area. The only thing missing from our CAC is you! If you would like to serve on the CAC or participate in any of the MPO's activities, please contact us at 352-754-4082 or visit our website.

RESPONSIBILITIES OF THE MPO

The Hernando/Citrus MPO is the transportation planning agency for the area. A cooperative process is used to make decisions about the transportation investments needed to meet the existing and future travel needs. The MPO develops the following Core plans and programs:

Long Range Transportation Plan (LRTP)

Identifies transportation improvements necessary to maintain adequate mobility and accommodate growth forecasted over the next 20-year timeframe. The plan includes long-range and short-range strategies that provide for development of an integrated multimodal transportation system (to include accessible pedestrian walkways and bicycle transportation facilities). The process includes innovative technical modeling and collaborative public engagement. Future goals, strategies and projects to address the planning factors required by 23 C.F.R. 450.306(a) and (b)] are identified in the LRTP.

Transportation Improvement Program (TIP)

A priority list of transportation projects developed by an MPO that is to be carried out within the four (4)-year period following its adoption; must include documentation of Federal and State funding sources for each project and be consistent with adopted MPO Long Range Transportation Plan and local government comprehensive plans.

List of Priority Projects (LOPP)

A list of priority projects developed by the MPO in coordination with the FDOT on an annual basis. The LOPPs must be based upon selection criteria which considers the approved LRTP, the Strategic Intermodal System Plan, the Transportation Regional Incentive Program (TRIP) Priorities, results of transportation management systems and public involvement.

Unified Planning Work Program (UPWP)

The work program for the MPOs transportation program. The UPWP must include a description of work, resulting products, who will perform the work, cost of the work and source of the funding. The UPWP covers two State fiscal years. The establishment of the initial 2-year program is considered "new UPWP development", the 2nd year update is the "UPWP Revision". A revision can be categorized as a modification or amendment depending on the threshold of revision.

Public Participation Plan (PPP)

A plan which defines the processes for providing reasonable opportunities for public involvement in the MPO planning process. The PPP should be reviewed periodically and in particular, prior to initiation of the development of a new LRTP.

PUBLIC PARTICIPATION POLICIES

Public Notice

The MPO informs the public, in a timely manner, of upcoming decisions regarding plans and programs. Notices will be posted on the MPO website and advertised in local newspapers in each county consistent with Florida Statutes. Additional information for Core MPO Plans and programs can be found in the specific requirement section of this document. Exceptions to the minimum requirements may be allowable as outlined in Section (emergency provisions)

Public Access

All Meetings are open to the public and participation is encouraged. Meeting locations alternate between Hernando and Citrus Counties. Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, income or family status.

Persons who require special accommodations under the Americans with Disabilities Act should contact the MPO at least 2 days prior to the proceedings, for language assistance please contact the MPO at least 5 days prior to the proceedings to allow adequate coordination time.

Public Comment Period

A key opportunity for members of the public to share their thoughts and ideas is during the public review and comment period. The public comment periods are intended to ensure the public has easy access to information and timely notice about the transportation planning process. The MPO advises the public of the comment periods in several ways:

- The MPO Website: documents released for public review are available online, and by request.
- The public may comment regarding any of the MPO products on our website.

Underrepresented Segments of The Public

The MPO seeks participation from those people who are typically under-represented including but not limited to, the transportation disadvantaged, minorities, the elderly, persons with disabilities and low income households.

Stakeholder Coordination

To provide affected and interested parties' opportunities to comment on the transportation planning process pursuant to 23 USC 104(d)1, the MPO maintains an up-to-date database of contacts which includes:

- Elected Officials
- Local Government Staff

Transit Development Plans

Major updates to Transit Development Plans (TDP) for Hernando and Citrus County are reviewed by the MPO staff and posted to the MPO website for the public's information. The TDP or TDP updates are not approved by the MPO Board

Transportation Disadvantaged Local Coordinating Board

Meeting notices are published in a newspaper of general circulation in the home county 5-10 days prior to any public Transportation Disadvantaged Local Coordinating Board meeting. The meeting notice and associated agendas will be posted to the MPO website approximately one week prior to meetings.

Updates to the Transportation Disadvantaged Service Plans (TDSP) for either Citrus or Hernando County are available on the MPOs website for public review prior to approval. Public access is provided as identified in this document.

Minor updates to the TDSP that do not affect program operations do not require public review (i.e.: corrections, descriptions, etc.)

MPO OUTREACH STRATEGIES

The following outreach strategies are regularly used by the MPO:

- Provide timely information about transportation issues and processes to communities, affected public agencies, representatives of transportation agencies, private providers of transportation, other interested parties and segments of the community affected by transportation plans, programs and projects (including, but not limited to, local jurisdiction concerns).
- Provide reasonable public access to technical and policy information used in the development of the LRTP, the TIP, and other appropriate transportation plans and projects, and conduct open public meetings where matters related to transportation programs are being considered.
- If the final draft of any transportation plan differs significantly from the one available for public review by the MPO and raises new material issues which interested parties could not reasonably have foreseen, an additional opportunity for public comment on the revised plan is made available.
- All transportation plans and project documents are posted to the MPO's website to ensure reasonable access to the information by the public during the review period. Hard copy of the materials are always available for public review during business hours at our office or upon request.

- Comment Forms are used to solicit public comment on specific issues or transportation plans being presented at a workshop or other public meeting. A general comment form is available on the MPO website and monitored regularly.
- Citizens may also submit email comments, or via regular mail. Responses to questions and comments concerning the public participation process, draft transportation plans, programs or public agency consultation process will be made directly to the citizen by letter, telephone call or by email

within 10 days of receipt. A summary of comments received will be made part of the final plan or program.

- Social Media platforms such as Twitter, Facebook, and Instagram are used to promote MPO products. These platforms are used to communicate information to the public and provide a means for the public to communicate back with comments or questions.
- When significant written and oral comments are received on the draft transportation plan (including the financial plan) as a result of the public participation process or the interagency consultation process required under the U.S. Environmental Protection Agency conformity regulations, a summary, analysis, and report on the disposition of comments is made part of the final plan.
- Solicit the needs of those under-served by existing transportation systems, including, but not limited to, the transportation disadvantaged, minorities, elderly, persons with disabilities, and low-income households.
- Use visualization techniques at meetings and workshops to include mapping, PowerPoint presentations, pictures, etc.
- Hold public meetings at convenient locations and accessible times which in the event of a statewide emergency, includes the ability to conduct virtual meetings
- Coordination with the statewide transportation planning public involvement and consultation processes
- Periodically reviewing the effectiveness of the procedures and strategies contained in the participation plan to ensure a full and open participation process
- Meeting notices are to be published in a newspaper of general circulation (in both Hernando and Citrus Counties with the exception of Transportation Disadvantaged Boards which are only required in the Board's home county). Notices shall be published consistent with Florida Statutes, Chapter 50.
- The MPO Core products are identified in this document with the associated minimum review requirements.
- Newsletters will be produced biannually to keep the public up to date regarding plans and projects, and timelines for participation
- An MPO logo, consistent font, and a color scheme representing the MPO is used to identify products and publications of the MPO.
- E-mail Announcements and MPO information will be e-mailed to interested persons that have submitted their e-mail addresses to MPO staff.

Additional Strategies – Project Applicable

- Project Workshops/Open Houses/Community Forums may be used to provide project information to the public and to solicit public comment.
- Media releases may be sent to local media to announce upcoming meetings and activities and to provide information on specific issues being considered by the MPO or their committees.
- Surveys may be available online or distributed in person
- Virtual meeting/communication technology may be used with regularly scheduled and noticed public meetings. In a state of emergency, where the law permits, these technologies may be used in lieu of in person meetings.
- Project websites may be used for individual projects, such as corridor studies, that are typically performed using consulting services. In this case, a link to the project site would be included on the MPO site.

DRAFT

SPECIAL CIRCUMSTANCES

Most amendments to program documents are reviewed in accordance with the Specific Requirements section of this Public Participation Plan. Exceptions can be made if an emergency amendment or action must be approved in a timeframe where strict adherence to the requirements cannot be met.

Legal notices may advertise meetings in a shorter period of time or provide a shorter review and comment period than indicated in the PPP. All possible effort will be made to maximize conformance with the MPO's notification requirements, but if necessary, the MPO staff will place the notices regarding short notice meetings and special meetings via email to MPO contacts, the MPO's website and other social media platforms.

In the instance of TIP amendments as outlined in table 2, most receive a review before entering the program. Exceptions are made when an emergency amendment must be approved prior to the next Board meeting for the amended project to receive funding. In these cases, the Executive Director is authorized to approve the amendment and sign a corresponding resolution on behalf of the board without having to call an emergency meeting of the Board. The Executive Director's approval of the amendment then must be provided to advisory committees as an information item and ratified at the next regularly scheduled MPO meeting.

State Of Emergency

During a local, state, or federal emergency, every attempt will be made to follow the MPO participation plan or to offer alternatives for committee and board approval, to continue community engagement, and to seek input. Adjusted strategies may include enhanced use of media and social media resources, and increased mailings or mass email distributions. The MPO may consider providing information via webinar or short videos to cover topics which would have been addressed in an in person meeting.

The MPO Continuity of Operations Plan (COOP) provides guidance in the event of an interruption of services due to an emergency. The purpose of the COOP is to provide the conditions for continuous performance of essential operations during a crisis, disaster, or other debilitating loss of resources and to ensure operational and managerial requirements are met.

The MPO is required by law to produce, approve, and submit the Unified Planning Work Program (UPWP), Long Range Transportation Plan (LRTP), List of Project Priorities, and Transportation Improvement Program (TIP) in compliance with statutory mandates and

timelines. In the event the COOP is activated when one or more of these documents must be approved, the MPO is authorized to implement emergency protocols in a local, state, or federal declaration of a State of Emergency:

1. The Executive Director, in consultation with the Chair (or their respective successors), may request a deferral of approval depending on the emergency, the specific essential document needing approval, and the projected date when the MPO Board could meet again.
2. If the quorum requirements for public meetings are suspended by Executive Order of the Governor of the State of Florida, the MPO may hold a public meeting of the MPO Board using communications media technology, following rules pursuant to F.S. Section 120.54(5)(b)2 and waiving official recommendations from MPO committees.

INTRODUCTION

THE HERNANDO/CITRUS METROPOLITAN PLANNING ORGANIZATION

The Hernando/Citrus Metropolitan Planning Organization (MPO) is a subrecipient of federal funds from the U.S. Department of Transportation modal agencies, including Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) through the Florida Department of Transportation. All Recipients of federal funding must comply with the requirements of Title VI of the Civil Rights Act of 1964 and other nondiscrimination statutes, regulations and authorities. This Implementation Plan describes how the MPO effectuates nondiscrimination in the delivery of its federally assisted programs, services and activities. The Plan includes the structure of the MPO's Title VI/Nondiscrimination program as well as the policies, procedures and practices that are used to comply with nondiscrimination requirements.

TTY-based Telecommunications Relay Services permit persons with a hearing or speech disability to use the telephone system via a text telephone (TTY) or other device to call persons with or without such disabilities. Dial 711 to be automatically connected to a TRS communications assistant.

Discapacidad para usar el sistema telefónico a través de un teléfono de texto (TTY) u otro dispositivo para llamar a personas con o sin tales discapacidades. Marque 711 para conectarse a un asistente.

Individuals requiring special accommodations under the Americans with Disabilities Act, known by its acronym in English ADA, or persons requiring translation services (free of charge) should contact the Civil Rights Officer.

The MPO does not and will not exclude from participation in; deny the benefits of; or subject anyone to discrimination on the basis of race, color, national origin, sex, age, disability or income. In addition, the MPO complies with the Florida Civil Rights Act, and does not permit discrimination on the basis of religion or family status in its programs, services or activities.

ANNUAL CERTIFICATION ASSURANCES

Title VI of the Civil Rights Act of 1964 provides that: “No person in the United States shall, on the grounds of race, color, or national origin, be excluded from, participation in, or be denied the benefits of, or be subjected to discrimination under any program, or activity receiving Federal financial assistance.” Other federal legislation extended the protections under Title VI of the Civil Rights Act of 1964 to prohibit discrimination based on sex, disability, and age.

Federal rule, 23 CFR 450.316(b)(2), requires that the metropolitan transportation planning process “[b]e consistent with Title VI of Civil Rights Act of 1964 and the Title VI assurance executed by each State under 23 U.S.C. 324 and 29 U.S.C. 794, which ensure that no person shall, on the grounds of race, color, sex, national origin, or physical handicap, be excluded from participation in, be denied benefits, or be otherwise subjected to discrimination under any program receiving Federal assistance from the United States Department of Transportation.” An effective public involvement process is integral to providing assurances that the MPO's planning process is consistent with Title VI.

Each MPO must annually certify to the FDOT that the MPO planning process is being conducted in accordance with Title VI of the Civil Rights Act of 1964. The MPO uses a variety of strategies to demonstrate that their planning process is consistent with Title VI. These strategies include but are not limited to the following:

- Developing and updating a Title VI plan;
- Designing the MPO public involvement plan with specific Title VI strategies;
- Evaluating any existing public involvement Title VI strategies;
- Reviewing planning products and projects for disparate impacts on various cultures and socioeconomic groups; and,
- Maintaining documentation of its Title VI strategies.

PUBLIC PARTICIPATION PLAN

In order to plan for efficient, effective, safe, equitable and reliable government services, the MPO must have the input of its public. The MPO spends extensive resources in furtherance of this goal and strongly encourages the participation of the entire community.

The Hernando/Citrus MPO seeks out and considers viewpoints of all persons including low-income, minority, elderly, and those with disabilities, Limited English Proficiency (LEP), ethnic and religious groups in the course of conducting public outreach and involvement activities regarding transportation planning activities. The MPO uses the approved Public Participation Plan (PPP) to facilitate this effort. Strategies to facilitate public input include:

- Website and Publications: The MPO includes information on its website regarding transportation planning activities and the Title VI plan. The MPO can supply most documents, upon request, in a variety of alternative formats and the use of Google Translator enables multi-lingual options. MPO transportation planning documents are available on the website. Social Media outlets including Facebook and Twitter are utilized to expand public outreach. .
- Public Meetings and Workshops: Any person may attend any MPO meeting, workshop, or committee meeting and speak during the public comment portion of the agenda

concerning a matter of MPO business or concern to the person. All public meetings are advertised and open to the public. Agendas and notices are posted to MPO website.

- Surveys: Transportation planning activity surveys are conducted as needed to gain feedback from the public. Staff considers the needs of those who cannot read or write and will verbally read the survey and record the respondent's comments. Surveys have also been made available in alternative formats such as large type and Spanish.
- Community Outreach – The MPO participates in various community and business meetings to promote public involvement, including social and faith-based organizations that serve vulnerable or traditional underserved communities.

ENVIRONMENTAL JUSTICE

Executive Order 12898, as well as the principles of equity and nondiscrimination require the MPO to identify and address discriminatory impacts on low income and minority communities. This process is referred to as Environmental Justice (EJ). As part of its planning process, the MPO is required to evaluate the impact its plans and projects have on these populations. The three fundamental principles the MPO follows include:

1. To avoid, minimize or mitigate the disproportionately high and adverse health, social and economic effects on minority and low-income populations;
2. To ensure full and fair participation by all potentially affected communities in the transportation decision-making process; and
3. To collect and analyze data relating to environmental justice.

OBJECTIVES

The MPO will continue to monitor impacts to the minority and low-income populations that could be affected by any of its programs or policies. By conducting analysis of these impacts, the MPO will ensure that no disparate treatment or consequences result from any of its activities. This analysis has been a useful tool in examining the distribution of transportation planning impacts on the traditionally underserved populations. Using this tool, the MPO has developed strategies to address environmental justice that are integrated throughout its numerous planning processes, programs and activities. The following plans contain significant elements that support environmental justice goals:

1. Long Range Transportation Plan (LRTP): Elements of the plan address the MPO's commitments to a safe and efficient multi-modal system and to keeping communities intact and to provide information and opportunities for input from the traditionally underserved.
2. Transportation Improvement Program (TIP)
3. Public Participation Plan (PPP): Complies with the public participation requirements of the new federal legislation. It addresses how the MPO will provide information and opportunity for input to the traditionally underserved. The plan also includes considerations such as the use of visualization techniques and simple language.

4. Title VI Complaint Process: Provides a procedure for individuals who believe they were subjected to discrimination or retaliation through the MPO's programs or activities. The MPO recognizes that the Spanish-speaking population of this MPO is a significant population, as indicated in the 2010 Census. As a result, a Spanish language complaint form is provided.
5. Limited English Proficiency (LEP) Plan: Describes the MPO's commitment to provide language assistance for LEP persons seeking meaningful access to MPO programs, as required by *Executive Order 13166*.

RECORD OF LANGUAGE ASSISTANCE

The MPO maintains a file for language assistance requests. As Spanish is the primary LEP language for those within the MPO planning boundaries, the MPO provides notice in Spanish of language services available. For more information or to review the MPO's LEP Plan, contact the Title VI Coordinator or visit our website at: www.hernandocitrusmpo.us.

ADA/504 STATEMENT

Section 504 of the Rehabilitation Act of 1973 (Section 504), the Americans with Disabilities Act of 1990 (ADA) and related federal and state laws and regulations forbid discrimination against those who have disabilities. Furthermore, these laws require federal aid recipients and other government entities to take affirmative steps to reasonably accommodate the disabled and ensure that their needs are equitably represented in programs and services.

The Hernando/Citrus MPO will make every effort to ensure that its facilities, programs, and services are accessible to those with disabilities. The MPO will make every effort to ensure that its advisory committees, public involvement and other programs and services includes representation by the disabled community and disability service groups. A reasonable accommodation is a change or modification to afford a qualified individual with a disability full enjoyment of the MPOs programs, unless modifications of policies, practices, and procedures would fundamentally alter the nature of the program or service or result in undue financial and administrative burdens or hardships to the MPO. The public is encouraged to report any facility, program, activity, or service that appears inaccessible to those who are disabled. Furthermore, the MPO will provide reasonable accommodations to disabled individuals who wish to participate in public involvement events or who require special assistance to access facilities, programs, activities, or services. Because providing reasonable accommodations may require outside assistance, organizations or resources, the MPO asks that requests be made at least five (5) business days prior to the need for accommodation by contacting: Hernando/Citrus MPO, 352-754-4082 or mpo@hernandocitrus.mpo.

PLANNING AND ADVISORY BODIES

The Hernando/Citrus MPO is governed by a board which is comprised of 9 elected officials from the 5 jurisdictions in the MPO area, 4 from Hernando County Board of County Commissioners, 2 from Citrus County Commissioners, and one member from each City in the MPO area, Brooksville, Inverness and Crystal River.

The MPO also maintains 3 advisory committees: the Technical Advisory Committee (TAC), the Citizens Advisory Committee (CAC), and the Bicycle/Pedestrian Advisory Committee (BPAC)

The MPO is also the designated planning agency for 2 local coordinating boards, the Hernando County Transportation Disadvantaged Local Coordinating Board (TDLCB) and the Citrus County Transportation Disadvantaged Local Coordinating Board.

The MPO makes every effort to encourage a diversity of participants on its boards and committees by posting positions on the MPO website and social media platforms. Anyone interested in serving on an MPO committee or participating in any MPO-sponsored activity should contact MPO staff at mpo@hernandocounty.us, or 352-754-4082..

DATA COLLECTION

The Federal Highway Administration (FHWA) regulations require federal-aid recipients to collect racial, ethnic, and other similar demographic data on beneficiaries of or those affected by transportation programs, services, and activities. The MPO accomplishes this through the use of census data and other reporting methods. From time to time, the MPO may find it necessary to request voluntary identification of certain racial, ethnic, or other data from those who participate in its public involvement events. This information assists the MPO with improving its targeted outreach and measures of effectiveness. Self-identification of personal data to the MPO will always be voluntary and anonymous. Moreover, the MPO will not release or otherwise use this data in any manner inconsistent with the federal regulations.

To assist with its Title VI and EJ responsibilities, the MPO maintains a Community Characteristics Inventory (CCI) that maps communities within the planning boundaries by race, ethnicity, age, low income and other 'base data'. This information is essential to the MPO in assessing whether its activities are equitably distributed or if planned projects may adversely impact a particular area or group. The MPO updates the CCI every three (3) years using the best available data, usually decennial census or American Community Survey result.

The MPO will conduct periodic EJ studies when warranted. Information drawn from the results of these studies is useful in developing subsequent MPO *plans*.

- The MPO will use American Community Survey and census data to determine the broad geographic location, total number and percentage of population groups. addressed by the *U.S. Department of Transportation Order on Environmental Justice and Executive Order 12898*.
- Studies consisting of interviews of representatives with health and social service organizations in the community have been performed to obtain a clearer picture of where minority groups and low-income persons can be found and what types of barriers they face in gaining access to transportation services.

CONSULTANT SERVICES AND CONTRACTING SERVICES

The Procurement Department of Hernando County provides support services to the MPO relating to policy and establishing procedures for consultant selection, negotiation, and administration of consultant contracts. Title VI responsibilities associated with the consultant contracts include but are not limited to:

- Monitor Disadvantaged Business Enterprise (DBE) program requirements. For FHWA-assisted contracts, the MPO is required to follow the FDOT DBE program and goal. Currently that goal is 100% race neutral.
- Ensure that all consultant contracts administered by the MPO have the appropriate Title VI provisions included
- Review directives and procedures to ensure Title VI nondiscrimination compliance
- Maintain necessary data and documentation required for completion of the department's Title VI Annual Report
