ARTICLE 24 GRIEVANCE PROCEDURE & ARBITRATION

Section 1. Policy Statement

It is the policy of the Hernando County Board of County Commissioners that an employee shall be able to discuss freely without retaliation, work-related concerns with his/her supervisor and/or other members of management in accordance with the chain of command and standing policies, procedures, and directives in an attempt to resolve problems informally. Employees shall also be provided with an opportunity to represent their complaints and have the decision of management reviewed through a formal grievance process.

The grievance process shall be available to all bargaining unit employees. An employee may be accompanied by a Union representative at each step of the grievance procedure. All complaints and grievances shall be resolved fairly and promptly. Union representatives may file grievances on behalf of the Union, or any of its members. In order to do this, guidelines will be established in order to provide all members with the opportunity to secure consideration of a grievance dealing with any of the following employee areas:

- A. Any presumed violation of the Personnel Regulation and Guidelines as adopted by the Board of County Commissioners or of this collective bargaining unit.
- B. Any alleged violation of established departmental SOG, policy, procedure, or a departmental rule.
- C. Any alleged violation of established county policy, procedure, or rule.

No employee shall suffer any retaliation for exercising his/her rights under this Article.

Many workplace issues can be resolved, even prevented, through effective interpersonal communication and problem-solving at the lowest possible level and earliest opportunity. The expectation is for employees to first peruse conflict resolution informally and through the chain of command. If possible and not otherwise allowed per established directives, policies, the current collective bargaining agreement, or by law.

Any claim by an employee, group of employees, or the Union that there has been a violation, misinterpretation, or misapplication of any provisions of this Agreement may be processed as a Grievance. Multiple grievances for the same issue shall be combined into one claim.

An employee may be accompanied by a Union representative at each step of the grievance procedure; however, nothing in this article shall require the Union to process grievances from and on behalf of employees who are not dues-paying members.

No employee shall suffer any retaliation for exercising his/her rights under this Article.

Section 2. Exclusions

The County and the Union agree that certain claims fall outside the scope of the Grievance Procedure and may not be grieved specifically:

- a. An employee's Grievance must concern an issue which directly, personally, and adversely affects the employee. Any issue which does not so affect the employee may not be grieved by the employee, although an employee may bring the matter to the attention of their Union Representative for consideration of a Grievance under Section 1 of this Article.
- b. An employee (and the union on the employee's behalf), may not grieve discipline or discharge occurring during that employee's initial hiring probationary period.
- c. The grievance procedure cannot be used as a vehicle to harass or otherwise impede the efficient operations of government or actions that are the domain of managements rights, unless otherwise specially covered in this agreement.
- d. Verbal disciplinary warnings (including counseling documentation of verbal warnings) and promotional decisions may not be formally grieved. However, employees may informally request an audience with the next level of their chain of command to discuss their concerns and requests for further consideration. The issue will terminate at that point.
- e. An employee must not have voluntarily concluded his/her employment with the County prior to the initiation of the grievance.
- f. Claims asserting the violation of federal, state, or local laws prohibiting employment discrimination (including sexual and other forms of unlawful harassment) are not subject to the Grievance process and shall be governed by the County's non-discrimination policy.

Section 3. Code of Ethics and Civility

Parties and party advocates shall treat all participants in the grievance process in a civil, courteous matter with respect at all times and in all communications.

Parties and advocates shall, at all times, comport themselves professionally and respectfully and will not engage in conduct that offends the dignity and decorum of grievance proceedings, the other party, or the Department.

Section 4. Processing

Subject to Section 5 of this Article, Grievances are to be processed as set forth below. At each Step after the initiating step, the employee and/or Union shall submit written notice to the Fire Chief and Human Resources that the Grievance has been initiated or advanced to the next Step, as applicable. The County shall provide its decision at each Step in writing to the employees and the Union.

The time requirements listed herein may be extended if mutually agreed upon. Business days shall refer to the days between Monday and Friday when the County government offices are open. When a grievance or response is submitted to the receiving party, the next business day shall count as day 1 in respect to the following time limits. The aggrieved party may choose to initiate the grievance at the step at or above the lowest level supervisor that allegedly caused the grievance.

Step 1 Immediate Supervisor. Within ten (10) business days from the time the employee or the Union reasonably could have known of the occurrence giving rise to the Grievance, the employee and/or his/her Union representative, after first completing and submitting a Grievance Form, shall discuss the Grievance with the employees immediate supervisor and/or the person at the next level in the chain of command (typically the employee's Battalion Chief). The supervisor shall reach a decision and communicate it in writing to the employee and Union within (10) business days after the informal discussion occurs.

Step 2 Division Chief/Deputy Chief. Within ten (10) business days of the Step 1 decision being communicated, if the employee and the Union are not satisfied with the result, the Grievance shall be presented in writing to the appropriate Division or Deputy Chief as a Step 2 Grievance. Within ten (10) business days of the receipt of the Step 2 Grievance, the Division or Deputy Chief shall meet with the employee and Union. The employee and Union will be provided with written determination within ten (10) business days of the meeting with the Division or Deputy Chief.

Step 3 Fire Chief. Within ten (10) business days of the Step 2 decision being communicated, if the employee and Union are not satisfied with the result, the Grievance shall be presented in writing to the Fire Chief as a Step 3 Grievance. Within ten (10)

business days of receipt of the Step 3 Grievance, the Fire Chief (or designee) shall meet with the employee and Union. The employee and Union will be provided with a written determination within ten (10) business days of the meeting with the Fire Chief (or designee).

Step 4 County Administrator. If the employee and Union are not satisfied, within ten (10) business days of receipt of the Step 3 determination, the Grievance shall be presented to the County Administrator as a Step 4 Grievance. Within ten (10) business days of the receipt of the Step 4 Grievance, the County Administrator (or designee) shall meet with the employee and Union and endeavor to reach an adjustment of the Grievance. The employee and Union will be provided with a written answer within ten (10) business days of the meeting with the County Administrator (or designee).

Referral to FMCS Mediation: If the grievance is not settled at Step 4, the grievance may be submitted to mediation with the Federal Mediation and Conciliation Service (FMCS) in writing within thirty (30) calendar days. Either the Union or County may request mediation. Both parties must agree to participate in mediation. Mediation is not required to proceed to arbitration. If mediation is mutually agreed upon, the timeline for arbitration shall be extended for the time necessary to conclude mediation. If the grievance is resolved at mediation, the resolution shall be reduced to writing and signed by both the county and the Union.

Referral to Arbitration. If the parties do not both agree to participate in mediation or if the grievance is not resolved during the FMCS Mediation, either party may proceed to arbitration in accordance with Section 7 of this Article.

If at any time in this procedure the County does not respond within the prescribed time limits, the Grievance automatically shall proceed to the next Step. If the employee and/or Union do not adhere to the time limits set forth in this Article, the Grievance will be deemed withdrawn and not further actionable.

Time limits in this Article may be extended upon mutual written consent of the parties. A "business day" for purposes of this Article refers to Mondays through Fridays, excluding County-recognized holidays.

Section 5. Initial and Terminal Steps of Certain Grievances

Written reprimands may be grieved, but only through Step 3, with the Step 3 decision being final. Written reprimands may not be arbitrated.

A grievance relating to an unpaid suspension of more than one day/shift, a reduction in pay, a disciplinary demotion, or the termination of employment shall begin at Step 4.

Section 6. Relationship to Work Time

Union representatives may investigate or otherwise handle grievances during working time, as long as there is no unreasonable interference with the operational needs of the County.

The employee and/or Union shall have the right to arbitrate a Grievance as provided below:

- a. A demand for Arbitration shall be made in writing to the Human Resources Director within twenty (20) calendar days at the conclusion of the agreed upon FMCS Mediation or within twenty (20) calendar days after the County's Step 4 answer if the parties do not agree to FMCS Mediation. A copy of the demand for arbitration must be filed with the Federal Mediation and Conciliation Service.
- b. The request for Binding Arbitration shall include a request for a list of ten (10) "Metropolitan" arbitrators who are members of the FMCS.
- c. Once the list of ten (10) arbitrators is received by the County and the Union, beginning with the party requesting arbitration striking first the parties will alternately strike panel members until only one member remains. The sole remaining member shall arbitrate the grievance.
- d. The arbitrator promptly shall conduct the hearing on the Grievance at which both parties shall be permitted to present evidence and post hearing written argument. The decision of the arbitrator shall be final and binding on all parties.

- g. The arbitrator's decision shall be in writing, shall be determined by applying a preponderance of the evidence standard and shall set forth the arbitrator's opinion and conclusions on the precise issue(s) submitted through the Grievance. The arbitrator shall have no authority to determine any other issue, and the arbitrator shall refrain from issuing any statement of opinion or conclusion not essential to the determination of the issue(s) submitted.

- h. The arbitrator shall not have any power or authority to make any decision contrary to or inconsistent with, adding to, subtracting from, or modifying, altering, or ignoring in any way, the terms of this Collective Bargaining Agreement or of applicable law or rules or regulations having the force and effect of law. Further the arbitrator shall not have the power or authority to limit or interfere in any way with the powers, duties, and responsibilities of the County except as such powers, duties, and responsibilities of the County except as such powers, duties and responsibilities have been abridged, delegated, or modified by the express provisions of this Agreement.
- i. If the arbitrator finds that cause exists for the discipline administered, the arbitrator shall affirm the decision of the County. If the arbitrator finds that cause did not exist for the discipline administered, the arbitrator shall reverse or modify the decision of the County and provide relief consistent with the provisions of the Collective Bargaining Agreement, County Policy and law. The arbitrator's discretion is limited to reversing or affirming the discipline at the level of discipline imposed.
- j. In discharge cases, the arbitrator is empowered to either sustain the discharge or, if he/she does not, reinstate the employee with or without back pay and benefits, as the circumstances warrant. The following limitations shall apply:
 - 1. Any award of backpay shall be reduced by unemployment compensation the employee has received, and by interim earnings received by the employee from a replacement job or jobs.

ARTICLE 32 STAFFING AND EMERGENCY RESPONSE

Section 1.

The Board of County Commissioners has the sole authority to determine the purpose and mission of the County Government, to determine the services to be provided to the public, and the budget to be adopted. The Union and the employees covered under this Agreement recognize and agree that the County has the sole and exclusive right, except as specifically provided for in the Agreement, to manage and direct any and all of its operations.

Section 2.

The County has the sole and exclusive right to decide as to the number, location, method, and personnel by which operations are to be conducted, including the right to assign overtime work to employees in alignment with Article 42 and contract or subcontract out work in whole or in part, subject to the layoff and recall provisions of the CBA.

Section 3.

The County and the Union agree that staffing levels have a correlation to the level of operational readiness as well as to the safety of the public and firefighters. The parties also agree that it is the sole authority and responsibility of the County to establish staffing level parameters and the acceptable public safety level of risk on behalf of the citizens of Hernando County.

Section 4.

The County, through management rights and budget limitations, establishes the fire rescue Emergency Response Capability (ERC) levels. It is the responsibility of all fire officers and emergency scene incident commanders to respond to, size up, develop and implement an incident action plan, and manage resources to safely mitigate the emergency incident. Every incident action plan's strategy and tactics must focus on the objectives of the life, safety, property conservation, and hazard mitigation. The following ERC levels incorporate the combination of trained personnel, available fire rescue resources and equipment, and the ability to meet County established response time standards.

- A. Optimum Level of Service (OLS) - The level of service is Optimum when all authorized resources are available for emergency responses in accordance with NFPA 1710.
- B. Standard Level of Service (SLS) - The level of service where all authorized minimum resources are staffed and available for the emergency response within Department SOG(s). SLS provides sufficient capability for initial and staggered unit response for sustained operations after arrival on scene. During SLS, emergency response forces have the minimum resources (three (3) firefighter engine companies and two (2) firefighter rescues / ambulances, and a minimum of 64 total personnel on duty with the exception of the "day-car") to potentially accomplish all necessary life safety and property conservation objectives when responding to individual and multiple emergency incidents from an all-hazards perspective.
- C. Reduced Level of service (RLS) - The level of service when ERC is less than SLS but greater than Critical Level of Service, RLS provides sufficient capability for initial response, scene assessment and implementation of mitigation tactics. This level of service represents increased risk/loss potential due to lack of ERC to perform rescue and sufficient mitigation tactics simultaneously.

In structural fire incidents, the NFFA 1710 fire and emergency response objectives and essential fireground tasks may not be successfully completed during situations where simultaneous rescue and firefighting activities are required. RLS may necessitate defensive fighting tactics with interior firefighting operations potentially prohibited unless the fireground Incident Commander determines that responders entering the structure are unlikely to be injured or killed or that there is a potential rescue of an occupant.

Reduced Level of Service exists when emergency response units are either unavailable or understaffed, e.g. two (2) firefighter engine companies last call unit designations, or unit unavailable designations.

D. Critical Level of Service (CLS) - The level of service when ERC required for RLS is unavailable. This level of service represents an extreme risk/loss potential due to lack of ERC to perform rescue and sufficient mitigation tactics simultaneously. Normal fire and emergency response objectives will not be successful, and the property involved in the fire is expected to be destroyed.

Section 5. Levels of Service Rules of Engagement

- A. The Union and the County agree that the daily operational objective is to, at a minimum, maintain the Standard Level of Service Emergency Response Capability in accordance with department SOG(s).
- B. Reduced Level of Service can and does occur during normal daily operations and for other operational or administrative needs such as for planned training drills. The County reserves the right to implement RLS for overtime fiscal management purposes on an as-needed basis. However, RLS periods greater than eight (8) hours for any other reason other than emergency response operations will not be utilized without direction from the County Administrator with input from the Union President for alternative solutions.
Exception: The Fire Chief has the authority to approve not staffing one (1) peak time rescue/ ambulance ("day-car") on an as-needed basis for overtime management purposes for normally planned tours of duty greater than eight (8) but not more than (12) hours. Non-firefighter certified EMS staff will not be utilized for minimum staffing purposes on any fire apparatus nor 24-hour rescues / ambulances.

For reasons other than emergency response related or lack of available vehicles, RLS threshold for periods greater than eight (8) hours will not exceed:

- one (1) engine company designated unavailable or one engine company per battalion staffed with crew of two; and/or

- one (1) battalion chief limited to those times when an administrative chief is on duty and available for immediate emergency response; and/or
 - one (1) peak time rescue/ ambulance ("day-car")
- C. Critical Level of Service can and does occur due to emergency response call volume and multiple simultaneous emergency incidents. However, CLS for any other reason other than emergency response operations will not be utilized without direction from the County Administrator with input from the Union President for alternative solutions.

ARTICLE 33 SHIFT AND STATION BID

Section 1.

- A. If a vacancy occurs at a station within a shift, it shall be emailed via the County email system, as soon as possible to all employees. HCFR employees shall have three business days to submit bids for the position.
- B. The bids shall be emailed through the chain of command via the chain of command to Division Chief of Operations and Administrative Payroll Staff by any interested employees no later than the deadline date listed on the posting.
- C. The HCFR bid form shall be accurately completed with all the required signatures. Failure to do so shall be grounds for denial of the bid request.
- D. The Division Chief of Operations shall give final approval of the Shift and Station award with consideration given to qualifications, seniority, and/or operational effectiveness.
- E. The procedure shall be done prior to hiring any employees from outside the department.
- F. Once an employee applies for and is granted a Shift and Station bid, the employee may not bid another station for at least one (1) year (unless the employee was moved based on operational effectiveness, which shall not preclude additional shift bidding by the employee).
- G. Any personnel that are moved based on operational effectiveness, shall have the ability to move to their previous station assignment if a vacancy opens within one (1) year of the administrative move.
- H. Firefighters serving during their initial probation (first 12 months), shall not have the ability to bid for another station or shift.
- I. The fire department needs to provide a balance of Paramedics (excluding Captains and Driver Engineers) assigned to each shift and/or station that is vital to providing a uniformed level of

service. Therefore, the following paramedic balanced staffing guidelines shall be followed:

1. When Firemedic-only bid slots (based on Management's paramedic staffing plan) are not filled by the normal bidding processes, Management has the right to assign Firemedics to shifts and/or stations as needed (supersedes the bidding process).
2. When non-bid Firemedic placements occur, the least senior (based on hire date) Firemedic is moved to fill a vacant slot.
3. A Firemedic moved under this paragraph, shall retain the right to bid to another open Paramedic position pursuant to paragraphs A through E above.
4. The first priority of balancing Firemedics (excluding Captains and Driver Engineers) across stations and shifts shall be assigning a minimum of two (2) Firemedics for every rescue (ambulance) assigned to the station.
5. The second priority (after completing the first priority) of balancing Firemedics (excluding Captains and Driver Engineers) across stations and shifts shall be assigning a minimum of one (1) Firemedic per shift at each fire station not equipped with a rescue (ambulance).
6. The third priority (after completing the first and second priority) of balancing Firemedics (excluding Captains and Driver Engineers) across stations and shifts shall be assigning a minimum of three (3) Firemedics per shift at each fire station equipped with a rescue (ambulance) and five (5) Firemedics for stations that are assigned 2 rescues (ambulances). Non-firefighter certified EMS staff shall not count toward the Firemedic minimum staffing.
7. Paramedic rebalancing shall be achieved without a forced shift change whenever possible. However, it is acknowledged that rebalancing across shifts shall occur when a Firemedic imbalance is reached.

ARTICLE 34 HYBRID KELLY DAYS

Section 1.

- A. All combat employees assigned to shift work (24 hours on and 48 hours off) shall receive a Hybrid Kelly Day that occurs every 6 weeks on the same day of the week. FLSA does not require Kelly Days to be treated by the employer as paid hours worked. As such, Hybrid Kelly Days are to be treated by the employer as unpaid time off and not to be recognized as hours worked for overtime accounting purposes.
- B. Combat employees are authorized to work voluntary overtime on their Hybrid Kelly Day. It is the employee's responsibility to notify the Staffing Battalion Chief that they wish to be considered for voluntary overtime in accordance with Article 42. This must be clearly noted on the employee's time sheet in accordance with department time accounting procedures.
- C. The actual hours worked over 6 weeks without a Hybrid Kelly Day is 336. The actual hours worked with a Hybrid Kelly Day every 6 weeks is 312 (336-24=312). The actual hours worked by combat employees with a Hybrid Kelly Day every 6 weeks equates to 52 hours per week on average.

ARTICLE 35 MUTUAL EXCHANGE OF TIME

Section 1. Utilization of Mutual Exchange of Time

Mutual exchange of time is a privilege for utilization of personnel within the HCFR Operations Division.

Mutual exchange of time shall not disrupt the efficient operations of HCFR. At no time shall HCFR be responsible for paying back owed mutual time to an employee due to another employee that has separated from employment. It is the responsibility of the remaining employee to report to work or find another means of leave. However, the employee who has not received the reciprocal exchange of time, may be allowed to utilize his/her own PTO as to not disrupt planned time off\ even if this creates a circumstance of allowing more personnel off then normally allowed.

HCFR Fire Administration reserves the right to suspend or deny mutual exchange of time for an employee on a case-by-case basis when such exchanges of time disrupt the operations of a fire station, battalion, or the department.

Section 2. Parameters

Mutual exchange of time is a benefit to allow personnel time off when utilized within the following parameters:

- A. Mutual Time must be reciprocated equally between two (2) employees. If an employee requests an exchange of time from another employee, the time shall be reciprocated in full within one (1) year of the original exchange of time request.
- B. Exchanging of Kelly Days is permitted.
- C. Employees shall not owe more of the maximum allowed time of 240 hours at any given time.
- D. Although it is strongly encouraged to exchange time with employees of the same rank, an employee may exchange time with employees of one rank higher or lower than the requesting /receiving employee if the employee can fulfill all the duties in full of the requesting/receiving employee as scheduled at the time of the request. At no time shall an exchange of time be approved for more than one rank higher or lower than a requesting/receiving employee. The only exception to this is Kelly Day mutual exchanges. When this occurs, employees are not subject to the one rank higher or lower rule. Single-certification paramedics may only exchange time with other single-certification paramedics.
- E. Employees that have requested or agreed to a mutual exchange of time that has been approved by the Staffing Battalion Chief shall be responsible for reporting to duty at the agreed upon time and date.
- F. Battalion Chiefs shall be restricted to mutual exchange of time with other Battalion Chiefs or Captain/ride-up Battalion Chiefs when the Captain/ride-up Battalion Chief is working in the Battalion Chief capacity.
- G. It is the expectation that officers lead, manage, and train their crews which requires a higher need of their presence on their duty shift. As such, it is expected that barring long term leave demands such as military leave, workers comp, or sick leave for significant medical issues, officers should refrain from excessive use of mutual exchange of time that comprises the ability to adequately lead, manage and train their crews. Mutual exchanges will be denied and/or the privileges suspended if warranted based on a case-by-case quarterly review by the Division Chief of Operations.

Section 3. Request Procedures

All requests for mutual exchanges of time shall be submitted utilizing the following procedures:

- A. All requests shall be submitted via the HCFR scheduling or timekeeping software system. The only exception to this procedure will be if the software system or county computer system is down. In this case an email and follow up phone call to the employee's Battalion Chief shall occur.

- B. Mutual exchanges are not considered approved until the staffing Battalion Chief has approved the request via the staffing software system.
- C. All mutual exchanges shall have a reciprocation of time input into the staffing software system at the time of request.

Section 4. Failure to Report Procedure

Employees that fail to report to duty, due to an unexcused absence, on the agreed upon time and date of a mutual exchange shall have their ability to participate in mutual exchanges of time suspended for a minimum of six (6) months. Employees that fail to report to duty a second time shall be suspended from participating in mutual exchange of time for a minimum of twelve (12) months. Further violations of the mutual exchange of time reporting procedure shall result in a permanent revocation of mutual exchange of time. An employee may request reinstatement of their mutual exchange of time privileges after a period of three (3) years with the approval of the Fire Chief.

Section 5. Early Relief

Employees shall be granted upon request up to two (2) hours of early relief of duty when the following requirements are met:

- A. The employee that agrees to cover another employee for early relief shall be able to fulfill all the duties of the originally scheduled employee.
- B. The request must be submitted via the county e-mail system to the employee's Battalion Chief and the Staffing Battalion Chief as well as a follow up phone call via the chain of command to the Staffing Battalion Chief.

- D. Any administrative leave pending investigation or disciplinary action will not be used in the calculation of overtime rate of pay. Should the result of an investigation be unfounded, the employee's time shall be corrected.

Section 2. 24 Hour Shift Personnel

- A. Section 7(k) of the FLSA provides that employees engaged in fire protection or law enforcement may be paid overtime on a "work period" basis. A "work period" may be from 7 consecutive days to 28 consecutive days in length. For work periods of at least 7 but less than 28 days, overtime pay is required when the number of hours worked exceeds the number of hours that bears the same relationship to 212 hours as the number of days in the work period bears to 28 days. For example, fire protection personnel are due overtime under such a plan after 106 hours worked during a 14-day work period or over 212 hours during a 28-day period.
- B. The County and Union agree for the purposes of calculating overtime within FLSA compliance, the "work period" is 14 days.
- C. All planned leave hours (scheduled at least 24 hours in advance), including vacation, sick, PTO, holidays, and civil leave, will be used in the calculation of overtime rate of pay as hours worked.
- D. Unplanned leave hours, (less than 24 hours advanced notice) including sick, vacation, PTO unpaid leave, administrative-leave, disability pay, workers compensation, the holiday differential rate and holiday overtime itself will not be used in the calculation of overtime rate of pay as hours worked.

- E. Any administrative leave pending investigation or disciplinary action will not be used in the calculation of overtime rate of pay. Should the result of an investigation be unfounded, the employee's time shall be corrected.
- F. The FLSA does not require Kelly Days to be treated by the employer as paid hours worked. As such, hybrid Kelly Days are to be treated as unpaid time off and not recognized as hours worked for overtime accounting purposes.
- G. Overtime shall be considered as anytime actually worked over one hundred and six (106) hours within any 14-day "work period". Overtime will be paid at the rate of one and one-half times the employee's hourly rate. Standard Operating Procedures shall require that mandatory overtime shifts be awarded at Management's earliest practical date. Pre-identified overtime, normally being pre-scheduled prior to the 27th day of the preceding month.

Examples include but are not limited to paying an employee to give his/her assigned / agreed-to overtime in exchange for money or anything of monetary value or offering money or anything of monetary value to an employee to work overtime in his/her stead.
- J. Open positions should be filled first using available on-duty personnel, including those qualified to "ride up" as Captain or Battalion Chief.
 - 1. Vacation and Kelly days will be filled first with available on duty personnel.
 - 2. Remaining available on duty personnel shall then be used to fill vacancies created by sick leave or workers compensation.
 - 3. When there are no qualified-on duty personnel available to fill an open position, the opening may be filled using overtime on a position for position basis.
- K. If a firefighter creates the need for overtime, the person at the top of the firefighters' list will be assigned mandatory overtime. After that assignment, that person's name will be moved to the bottom of the list and the date of the overtime recorded. The next overtime position will be assigned to the next person on the list. Each time a person is assigned overtime, his or her name is crossed off and the date of overtime recorded. In the event a paramedic is required the first available paramedic will be selected from the firefighter list.

- L. If a Captain or Ride Up Captain creates the need for overtime, refer to the Captain's list and use the same procedure. If a Driver Engineer or Firemedic II or Firefighter II assigned as a Driver Engineer creates the need for overtime, refer to the Driver Engineer list.
- M. At no time will two (2) persons be hired back to meet the above criteria if only one (1) person is needed to meet minimum staffing. Should a station require a Captain and a Paramedic to fill minimum staffing, a Captain Paramedic may fill both requirements as an Officer and a Paramedic. Then a Firefighter may fill the second slot.

Section 3 Mandatory Overtime List

- A. In an effort to limit the amount of consecutive hours that employees are working, for all overtime spots that are vacant prior to 1000 hrs each shift, the open positions will be offered to any personnel that are on Kelly Day for that shift on a voluntary basis prior to sending out the mandatory list. Every effort will be made to move the employee working voluntary OT on their Kelly Day to their normal assignment when possible without interrupting operations.
 - a. It will be the responsibility of the members that are interested in working on their Kelly Days to contact Battalion 2 via email, prior to 0900 to be considered for the OT. There will be no exceptions.
 - b. The voluntary OT for members working on their Kelly Days for these early vacant positions will not be position for position. For example, if a vacancy is for a Firefighter, and a promoted employee accepts the voluntary OT on their Kelly Day, they would be moved to their normal position, and the appropriate moves will then occur to fill the vacancy.
- B. Kelly Day Overtime will be offered based on the same date listed on the most recent Mandatory OT list for that specific employee. Should the person receiving the mandatory overtime elect not to work the assigned time, the employee may elect to give the overtime slot away to another employee with equal training or more.
 - 1. A Firefighter may give the overtime away to another Firefighter.
 - 2. A Firefighter/Paramedic may only give the overtime to any other Firefighter/Paramedic or Lieutenant. Should the overtime be for a Non-Paramedic required position, the Firefighter/Paramedic may give the overtime to a Firefighter/EMT.
 - 3. A Driver Engineer may give the overtime to any other Driver Engineer. If the overtime requires a Driver/Engineer/Paramedic position, then the overtime can only be transferred to another Driver/Engineer/Paramedic, Lieutenant, or qualified ride-up.
 - 4. A Lieutenant may give the overtime to any other Lieutenant, Driver Engineer, or Firefighter. If the overtime requires a Firefighter/Paramedic, then the overtime can be transferred to a Lieutenant or Firefighter/Paramedic. If the overtime is for the supervisor position (ie. Medic 10), then it can be transferred

- to another Lieutenant, a Driver Engineer that is capable of riding up in the Captain's position, or a Captain.
5. The Captain may give the overtime to another Captain. If the overtime requires a Captain/Paramedic position, then the overtime can only be transferred to another Captain/Paramedic or a qualified ride up in accordance with SOG 145.
 6. If mandatory overtime cannot be given away at the current rank, then the individual may give the overtime to a person one rank either higher or lower that is qualified to fill the open slot.
 - a. Once mandatory overtime is issued, it will be the responsibility of the employee to either work the overtime or to give the overtime assignment away. Failing to report to the overtime assignment will be considered failure to report for duty and discipline will result.
 - b. If an employee gives away the overtime, the person who is accepting the overtime will need to contact Battalion Chief 2 to confirm the assignment. Overtime that has been given away to another employee is considered voluntary overtime by the accepting employee.
- C. Mandatory Overtime will be filled by the shift that is going off duty. For example: Mandatory overtime on A shift will be filled by C shift, mandatory overtime on B shift will be filled by A shift, and mandatory overtime on C shift will be filled by B shift.
- a. Battalion Chief 2 will fill the overtime slots as soon as possible after the OT assignment is recognized.
- D. Battalion Chief 2 will create a voluntary overtime list daily. An employee wishing to be included on the voluntary overtime list must notify Battalion Chief 2 by 1000 hrs.
- E. Employees must notify Battalion Chief 2 of any qualified exemption from overtime placement no later than 0900 hrs.
- F. Battalion Chief 2 will create the mandatory overtime list by 1000 hrs. Once created, both the voluntary overtime list and the mandatory list will be emailed to all personnel.
- G. Battalion Chief 2 will update the overtime list as soon as assignments have been made. The list will be published to shift personnel after any changes have been made so personnel can make personal plans to either take the overtime or give it away. Any staffing software will be updated as well to show the adjusted roster.

- H. Any employee who has a vacation, mutual or Kelly day scheduled for the next shift, will be placed in an exempt status on the mandatory overtime list. In addition, an employee who has worked 48 consecutive hours or more, will not be placed on the overtime list unless there is at least 12 hours off between assignments. When the employee returns to work, his/her name will be placed in the rotation for the overtime. If the employee wishes to remain on the mandatory OT list Battalion Chief 2 is to be notified by 0900 of the employee's duty shift.
- I. Employees in paramedic school and/or fire classes required for the Florida State certifications are exempt from mandatory overtime should the employee have school the next day. It is the responsibility of the employee to notify Battalion Chief 2, each shift before the mandatory list is created. All paramedic students must submit a schedule by the first of the month to Battalion 2 signed by an instructor in order to verify the school schedule.
- J. If an employee is assigned mandatory overtime for a period of 12 hours or less, that employee may notify Battalion Chief 2 prior to 0900 hrs on their next shift to remain at the top of the list.
- K. Any employee who has been the number one eligible person on the mandatory list for two shifts (48 total hours) may email Battalion 2 during the second shift, and request to be moved to the bottom of the list if they are not required to work mandatory overtime by the end of that shift. The employee must make such request before he/she leaves work on his/her second shift. The employee may not change their decision after the mandatory list is distributed on their next shift.
- L. Once an employee is relieved from duty (at either the normal 0800 hrs shift change or by approved early mutual relief in compliance with Article 35) mandatory OT will not be imposed.

- M. If during the course of a shift an employee has to leave for a valid reason, the following procedures shall be followed:
- a. Following the proper chain-of-command, the employees Battalion Chief shall be notified immediately.
 - b. Unless deemed an emergency by the Battalion Chief, the employee shall remain at work until proper relief can be arranged.
 - c. Battalion Chief 2 (Staffing) shall initiate an "all page" via the current staffing software, providing the following information: location of overtime, specific position needed, duration of overtime; and number to call is included.
 - d. It is the intention of the position specific "all page" to fill the overtime position within 15 minutes, with the correct ranked employee. If a correct ranked employee did not reply, and an employee the rank below (who is qualified to ride-up) did reply, then BC 2 is to offer the overtime to the first replying qualified ride-up for the vacant position.
 - e. If neither the specific position nor rank or a qualified ride-up for that rank replied to the "all page" and a qualified member at the next higher rank did reply, then BC 2 is to offer the overtime to the first replying qualified higher-ranking member for the vacant position.
 - f. If neither the specific position rank, qualified ride-up for the specific position or a qualified next higher position reply during the first 15-minute "all page" period, a second "all page" will be issued. BC 2 will then offer the OT to the most appropriate (closest in rank) during the first 5 minutes of the second "all page".
 - g. After the first 5 minutes of the second "all page" BC 2 will award the OT to the next available member, who can directly or indirectly, with additional personnel movement(s), fill the open position.
 - h. For durations of time of 4 or more hours, on-duty OT promoted officers (for ranks of Driver Engineer or higher) shall be assigned to serve at their normal rank, prior to the use of acting officers to fill vacant officer's position. This may require several moves.
- N. Should the Honor Guard have a scheduled event, personnel on the detail will be exempt from mandatory overtime.

- O. When composing the staffing for the shift, allowances must be made for long term absences. Long-term leave shall be defined as any absence that is in excess of 5 consecutive shifts. In this situation, those positions that are long term leave will be filled last after filling all normally occurring Vacation Leave, Kelly Days, etc., and then filled according to the position-for-position clause in the Union Contract.

Example: Firefighter 13 is out on Light Duty in excess of 5-shifts.

- a. All other positions will be filled on the shift, utilizing additional firefighters, Driver Engineers, and ride-ups. Then if there is not enough staff to fill the light duty opening, it will be filled with a firefighter on mandatory overtime as position-for-position.
- b. The Battalion Chief has the ability to allow thirteen (13) personnel on pre-scheduled leave such as vacation, PTO or Kelly Day. Leave requests submitted within 14 days of the requested date will be approved based upon the creation of overtime (per union contract.)
- c. The thirteen (13) slots will be reviewed by management on a quarterly basis and shall meet with the Union President to discuss the need to reduce allowed pre-scheduled time off to twelve (12) slots based on budgetary needs. Any pre-scheduled time-off that was approved prior to any decision to reduce pre-scheduled time-off shall be honored.

- e. Reasonable grounds of abuse include a pattern of numerous unexcused one-day absences throughout the year, particularly if leave is always taken on Mondays or Fridays; frequency or routinely taking a day once PTO leave is earned showing a pattern; proceeding or directly following a Holiday or pre-approved PTO day or low/zero accumulated PTO balance; and other patterns of abuse.

- (1) **DEFINITIONS.**—Except where the context otherwise requires, as used in this act:
- (a) “Chain of custody” refers to the methodology of tracking specified materials or substances for the purpose of maintaining control and accountability from initial collection to final disposition for all such materials or substances and providing for accountability at each stage in handling, testing, and storing specimens and reporting test results.
 - (b) “Confirmation test,” “confirmed test,” or “confirmed drug test” means a second analytical procedure used to identify the presence of a specific drug or metabolite in a specimen, which test must be different in scientific principle from that of the initial test procedure and must be capable of providing requisite specificity, sensitivity, and quantitative accuracy.
 - (c) “Drug” means alcohol, including a distilled spirit, wine, a malt beverage, or an intoxicating liquor; an amphetamine; a cannabinoid; cocaine; phencyclidine (PCP); a hallucinogen; methaqualone; an opiate; a barbiturate; a benzodiazepine; a synthetic narcotic; a designer drug; or a metabolite of any of the substances listed in this paragraph. An employer may test an individual for any or all of such drugs.
 - (d) “Drug rehabilitation program” means a service provider as defined in s. [397.311](#) which provides confidential, timely, and expert identification, assessment, and resolution of employee drug abuse.
 - (e) “Drug test” or “test” means any chemical, biological, or physical instrumental analysis administered, by a laboratory certified by the United States Department of Health and Human Services or licensed by the Agency for Health Care Administration, for the purpose of determining the presence or absence of a drug or its metabolites.
 - (f) “Employee” means any person who works for salary, wages, or other remuneration for an employer.
 - (g) “Employee assistance program” means an established program capable of providing expert assessment of employee personal concerns; confidential and timely identification services with regard to employee drug abuse; referrals of employees for appropriate diagnosis, treatment, and assistance; and followup services for employees who participate in the program or require monitoring after returning to work. If, in addition to the above activities, an employee assistance program provides diagnostic and treatment services, these services shall in all cases be provided by service providers as defined in s. [397.311](#).
 - (h) “Employer” means a person or entity that employs a person and that is covered by the Workers’ Compensation Law.
 - (i) “Initial drug test” means a sensitive, rapid, and reliable procedure to identify negative and presumptive positive specimens, using an immunoassay procedure or an equivalent, or a more accurate scientifically accepted method approved by the United States Food and Drug Administration or the Agency for Health Care Administration as such more accurate technology becomes available in a cost-effective form.
 - (j) “Job applicant” means a person who has applied for a position with an employer and has been offered employment conditioned upon successfully passing a drug test, and may have begun work pending the results of the drug test. For a public employer, “job applicant” means only a person who has applied for a special-risk or mandatory-testing position.

(k) “Medical review officer” or “MRO” means a licensed physician, employed with or contracted with an employer, who has knowledge of substance abuse disorders, laboratory testing procedures, and chain of custody collection procedures; who verifies positive, confirmed test results; and who has the necessary medical training to interpret and evaluate an employee’s positive test result in relation to the employee’s medical history or any other relevant biomedical information.

(l) “Prescription or nonprescription medication” means a drug or medication obtained pursuant to a prescription as defined by s. [893.02](#) or a medication that is authorized pursuant to federal or state law for general distribution and use without a prescription in the treatment of human diseases, ailments, or injuries.

(m) “Public employer” means any agency within state, county, or municipal government that employs individuals for a salary, wages, or other remuneration.

(n) “Reasonable-suspicion drug testing” means drug testing based on a belief that an employee is using or has used drugs in violation of the employer’s policy drawn from specific objective and articulable facts and reasonable inferences drawn from those facts in light of experience. Among other things, such facts and inferences may be based upon:

1. Observable phenomena while at work, such as direct observation of drug use or of the physical symptoms or manifestations of being under the influence of a drug.
2. Abnormal conduct or erratic behavior while at work or a significant deterioration in work performance.
3. A report of drug use, provided by a reliable and credible source.
4. Evidence that an individual has tampered with a drug test during his or her employment with the current employer.

(2) DRUG TESTING.—An employer may test an employee or job applicant for any drug described in paragraph (1)(c). In order to qualify as having established a drug-free workplace program under this section and to qualify for the discounts provided under s. [627.0915](#) and deny medical and indemnity benefits under this chapter, an employer must, at a minimum, implement drug testing that conforms to the standards and procedures established in this section and all applicable rules adopted pursuant to this section as required in subsection (4). However, an employer does not have a legal duty under this section to request an employee or job applicant to undergo drug testing. If an employer fails to maintain a drug-free workplace program in accordance with the standards and procedures established in this section and in applicable rules, the employer is ineligible for discounts under s. [627.0915](#). However, an employer qualifies for discounts under s. [627.0915](#) if the employer maintains a drug-free workplace program that is broader in scope than that provided for by the standards and procedures established in

this section. An employer who qualifies for and receives discounts provided under s. [627.0915](#) must be reported annually by the insurer to the department.

(3) NOTICE TO EMPLOYEES AND JOB APPLICANTS.—

(a) One time only, prior to testing, an employer shall give all employees and job applicants for employment a written policy statement which contains:

1. A general statement of the employer's policy on employee drug use, which must identify:
 - a. The types of drug testing an employee or job applicant may be required to submit to, including reasonable-suspicion drug testing or drug testing conducted on any other basis.
 - b. The actions the employer may take against an employee or job applicant on the basis of a positive confirmed drug test result.
 2. A statement advising the employee or job applicant of the existence of this section.
 3. A general statement concerning confidentiality.
 4. Procedures for employees and job applicants to confidentially report to a medical review officer the use of prescription or nonprescription medications to a medical review officer both before and after being tested.
 5. A list of the most common medications, by brand name or common name, as applicable, as well as by chemical name, which may alter or affect a drug test. A list of such medications as developed by the Agency for Health Care Administration shall be available to employers through the department.
 6. The consequences of refusing to submit to a drug test.
 7. A representative sampling of names, addresses, and telephone numbers of employee assistance programs and local drug rehabilitation programs.
 8. A statement that an employee or job applicant who receives a positive confirmed test result may contest or explain the result to the medical review officer within 5 working days after receiving written notification of the test result; that if an employee's or job applicant's explanation or challenge is unsatisfactory to the medical review officer, the medical review officer shall report a positive test result back to the employer; and that a person may contest the drug test result pursuant to law or to rules adopted by the Agency for Health Care Administration.
 9. A statement informing the employee or job applicant of his or her responsibility to notify the laboratory of any administrative or civil action brought pursuant to this section.
 10. A list of all drugs for which the employer will test, described by brand name or common name, as applicable, as well as by chemical name.
 11. A statement regarding any applicable collective bargaining agreement or contract and the right to appeal to the Public Employees Relations Commission or applicable court.
 12. A statement notifying employees and job applicants of their right to consult with a medical review officer for technical information regarding prescription or nonprescription medication.
- (b) An employer not having a drug-testing program shall ensure that at least 60 days elapse between a general one-time notice to all employees that a drug-testing program is being implemented and the beginning of actual drug testing. An employer having a drug-testing program in place prior to July 1, 1990, is not required to provide a 60-day notice period.
- (c) An employer shall include notice of drug testing on vacancy announcements for positions for which drug testing is required. A notice of the employer's drug-testing policy must also be posted in an appropriate and conspicuous location on the employer's premises, and copies of the policy must be made available for inspection by the employees or job applicants of the employer during regular business hours in the employer's personnel office or other suitable locations.

(4) TYPES OF TESTING.—

(a) An employer is required to conduct the following types of drug tests:

1. Job applicant drug testing.—An employer must require job applicants to submit to a drug test and may use a refusal to submit to a drug test or a positive confirmed drug test as a basis for refusing to hire a job applicant.
2. Reasonable-suspicion drug testing.—An employer must require an employee to submit to reasonable-suspicion drug testing.

3. Routine fitness-for-duty drug testing.—An employer must require an employee to submit to a drug test if the test is conducted as part of a routinely scheduled employee fitness-for-duty medical examination that is part of the employer’s established policy or that is scheduled routinely for all members of an employment classification or group.
4. Followup drug testing.—If the employee in the course of employment enters an employee assistance program for drug-related problems, or a drug rehabilitation program, the employer must require the employee to submit to a drug test as a followup to such program, unless the employee voluntarily entered the program. In those cases, the employer has the option to not require followup testing. If followup testing is required, it must be conducted at least once a year for a 2-year period after completion of the program. Advance notice of a followup testing date must not be given to the employee to be tested.
 - (b) This subsection does not preclude a private employer from conducting random testing, or any other lawful testing, of employees for drugs.
 - (c) Limited testing of applicants, only if it is based on a reasonable classification basis, is permissible in accordance with law or with rules adopted by the Agency for Health Care Administration.
- (5) PROCEDURES AND EMPLOYEE PROTECTION.—All specimen collection and testing for drugs under this section shall be performed in accordance with the following procedures:
 - (a) A sample shall be collected with due regard to the privacy of the individual providing the sample, and in a manner reasonably calculated to prevent substitution or contamination of the sample.
 - (b) Specimen collection must be documented, and the documentation procedures shall include:
 1. Labeling of specimen containers so as to reasonably preclude the likelihood of erroneous identification of test results.
 2. A form for the employee or job applicant to provide any information he or she considers relevant to the test, including identification of currently or recently used prescription or nonprescription medication or other relevant medical information. The form must provide notice of the most common medications by brand name or common name, as applicable, as well as by chemical name, which may alter or affect a drug test. The providing of information shall not preclude the administration of the drug test, but shall be taken into account in interpreting any positive confirmed test result.
 - (c) Specimen collection, storage, and transportation to the testing site shall be performed in a manner that reasonably precludes contamination or adulteration of specimens.
 - (d) Each confirmation test conducted under this section, not including the taking or collecting of a specimen to be tested, shall be conducted by a licensed or certified laboratory as described in subsection (9).
 - (e) A specimen for a drug test may be taken or collected by any of the following persons:
 1. A physician, a physician assistant, a registered professional nurse, a licensed practical nurse, or a nurse practitioner or a certified paramedic who is present at the scene of an accident for the purpose of rendering emergency medical service or treatment.
 2. A qualified person employed by a licensed or certified laboratory as described in subsection (9).
 - (f) A person who collects or takes a specimen for a drug test shall collect an amount sufficient for two drug tests as determined by the Agency for Health Care Administration.
 - (g) Every specimen that produces a positive, confirmed test result shall be preserved by the licensed or certified laboratory that conducted the confirmation test for a period of at least 210 days after the result of the test was mailed or otherwise delivered to the medical review officer. However, if an employee or job applicant undertakes an administrative or legal challenge to the test result, the employee or job applicant shall notify the laboratory and the sample shall be retained by the laboratory until the case or administrative appeal is settled. During the 180-day period after written notification of a positive test result, the employee or job applicant who has provided the specimen shall be permitted by the employer to have a portion of the specimen retested, at the employee’s or job applicant’s expense, at another laboratory, licensed and approved by the Agency for Health Care Administration, chosen by the employee or job applicant. The second laboratory must test at equal or greater sensitivity for the drug in question as the first laboratory. The first laboratory that performed the test for the employer is

responsible for the transfer of the portion of the specimen to be retested, and for the integrity of the chain of custody during such transfer.

(h) Within 5 working days after receipt of a positive confirmed test result from the medical review officer, an employer shall inform an employee or job applicant in writing of such positive test result, the consequences of such results, and the options available to the employee or job applicant. The employer shall provide to the employee or job applicant, upon request, a copy of the test results.

(i) Within 5 working days after receiving notice of a positive confirmed test result, an employee or job applicant may submit information to the employer explaining or contesting the test result, and explaining why the result does not constitute a violation of the employer's policy.

(j) The employee's or job applicant's explanation or challenge of the positive test result is unsatisfactory to the employer, a written explanation as to why the employee's or job applicant's explanation is unsatisfactory, along with the report of positive result, shall be provided by the employer to the employee or job applicant; and all such documentation shall be kept confidential by the employer pursuant to subsection (8) and shall be retained by the employer for at least 1 year.

(k) An employer may not discharge, discipline, refuse to hire, discriminate against, or request or require rehabilitation of an employee or job applicant on the sole basis of a positive test result that has not been verified by a confirmation test and by a medical review officer.

(l) An employer that performs drug testing or specimen collection shall use chain-of-custody procedures established by the Agency for Health Care Administration to ensure proper recordkeeping, handling, labeling, and identification of all specimens tested.

(m) An employer shall pay the cost of all drug tests, initial and confirmation, which the employer requires of employees. An employee or job applicant shall pay the costs of any additional drug tests not required by the employer.

(n) An employer shall not discharge, discipline, or discriminate against an employee solely upon the employee's voluntarily seeking treatment, while under the employ of the employer, for a drug-related problem if the employee has not previously tested positive for drug use, entered an employee assistance program for drug-related problems, or entered a drug rehabilitation program. Unless otherwise provided by a collective bargaining agreement, an employer may select the employee assistance program or drug rehabilitation program if the employer pays the cost of the employee's participation in the program.

(o) If drug testing is conducted based on reasonable suspicion, the employer shall promptly detail in writing the circumstances which formed the basis of the determination that reasonable suspicion existed to warrant the testing. A copy of this documentation shall be given to the employee upon request and the original documentation shall be kept confidential by the employer pursuant to subsection (8) and shall be retained by the employer for at least 1 year.

(p) All authorized remedial treatment, care, and attendance provided by a health care provider to an injured employee before medical and indemnity benefits are denied under this section must be paid for by the carrier or self-insurer. However, the carrier or self-insurer must have given reasonable notice to all affected health care providers that payment for treatment, care, and attendance provided to the employee after a future date certain will be denied. A health care provider, as defined in [s. 440.13\(1\)\(g\)](#), that refuses, without good cause, to continue treatment, care, and attendance before the provider receives notice of benefit denial commits a misdemeanor of the second degree, punishable as provided in [s. 775.082](#) or [s. 775.083](#).

(6) CONFIRMATION TESTING.—

(a) If an initial drug test is negative, the employer may in its sole discretion seek a confirmation test.

(b) Only licensed or certified laboratories as described in subsection (9) may conduct confirmation drug tests.

(c) All positive initial tests shall be confirmed using gas chromatography/mass spectrometry (GC/MS) or an equivalent or more accurate scientifically accepted method approved by the Agency for Health Care Administration or the United States Food and Drug Administration as such technology becomes available in a cost-effective form.

(d) If an initial drug test of an employee or job applicant is confirmed as positive, the employer's medical review officer shall provide technical assistance to the employer and to the employee or job applicant for the purpose of interpreting the test result to determine whether the result could have been caused by prescription or nonprescription medication taken by the employee or job applicant.

(7) EMPLOYER PROTECTION.—

(a) An employee or job applicant whose drug test result is confirmed as positive in accordance with this section shall not, by virtue of the result alone, be deemed to have a "handicap" or "disability" as defined under federal, state, or local handicap and disability discrimination laws.

(b) An employer who discharges or disciplines an employee or refuses to hire a job applicant in compliance with this section is considered to have discharged, disciplined, or refused to hire for cause.

(c) No physician-patient relationship is created between an employee or job applicant and an employer or any person performing or evaluating a drug test, solely by the establishment, implementation, or administration of a drug-testing program.

(d) Nothing in this section shall be construed to prevent an employer from establishing reasonable work rules related to employee possession, use, sale, or solicitation of drugs, including convictions for drug-related offenses, and taking action based upon a violation of any of those rules.

(e) This section does not operate retroactively, and does not abrogate the right of an employer under state law to conduct drug tests, or implement employee drug-testing programs; however, only those programs that meet the criteria outlined in this section qualify for reduced rates under s. [627.0915](#).

(f) If an employee or job applicant refuses to submit to a drug test, the employer is not barred from discharging or disciplining the employee or from refusing to hire the job applicant. However, this paragraph does not abrogate the rights and remedies of the employee or job applicant as otherwise provided in this section.

(g) This section does not prohibit an employer from conducting medical screening or other tests required, permitted, or not disallowed by any statute, rule, or regulation for the purpose of monitoring exposure of employees to toxic or other unhealthy substances in the workplace or in the performance of job responsibilities. Such screening or testing is limited to the specific substances expressly identified in the applicable statute, rule, or regulation, unless prior written consent of the employee is obtained for other tests. Such screening or testing need not be in compliance with the rules adopted by the Agency for Health Care Administration under this chapter or under s. [112.0455](#). A public employer may, through the use of an unbiased selection procedure, conduct random drug tests of employees occupying mandatory-testing or special-risk positions if the testing is performed in accordance with drug-testing rules adopted by the Agency for Health Care Administration and the department.

(h) No cause of action shall arise in favor of any person based upon the failure of an employer to establish a program or policy for drug testing.

(8) CONFIDENTIALITY.—

(a) Except as otherwise provided in this subsection, all information, interviews, reports, statements, memoranda, and drug test results, written or otherwise, received or produced as a result of a drug-testing program are confidential and exempt from the provisions of s. [119.07\(1\)](#) and s. 24(a), Art. I of the State Constitution, and may not be used or received in evidence, obtained in discovery, or disclosed in any public or private proceedings, except in accordance with this section or in determining compensability under this chapter.

(b) Employers, laboratories, medical review officers, employee assistance programs, drug rehabilitation programs, and their agents may not release any information concerning drug test results obtained pursuant to this section without a written consent form signed voluntarily by the person tested, unless such release is compelled by an administrative law judge, a hearing officer, or a court of competent jurisdiction pursuant to an appeal taken under this section or is deemed appropriate by a professional or occupational licensing board in a related disciplinary proceeding. The consent form must contain, at a minimum:

1. The name of the person who is authorized to obtain the information.
2. The purpose of the disclosure.

3. The precise information to be disclosed.
 4. The duration of the consent.
 5. The signature of the person authorizing release of the information.
- (c) Information on drug test results shall not be used in any criminal proceeding against the employee or job applicant. Information released contrary to this section is inadmissible as evidence in any such criminal proceeding.
- (d) This subsection does not prohibit an employer, agent of an employer, or laboratory conducting a drug test from having access to employee drug test information or using such information when consulting with legal counsel in connection with actions brought under or related to this section or when the information is relevant to its defense in a civil or administrative matter.
- (9) DRUG-TESTING STANDARDS FOR LABORATORIES.—
- (a) The requirements of part II of chapter 408 apply to the provision of services that require licensure pursuant to this section and part II of chapter 408 and to entities licensed by or applying for such licensure from the agency pursuant to this section. A license issued by the agency is required in order to operate a drug-free workplace laboratory.
- (b) A laboratory may analyze initial or confirmation test specimens only if:
1. The laboratory obtains a license under part II of chapter 408 and s. [112.0455](#)(17). Each applicant for licensure and each licensee must comply with all requirements of this section, part II of chapter 408, and applicable rules.
 2. The laboratory has written procedures to ensure the chain of custody.
 3. The laboratory follows proper quality control procedures, including, but not limited to:
 - a. The use of internal quality controls, including the use of samples of known concentrations which are used to check the performance and calibration of testing equipment, and periodic use of blind samples for overall accuracy.
 - b. An internal review and certification process for drug test results, conducted by a person qualified to perform that function in the testing laboratory.
 - c. Security measures implemented by the testing laboratory to preclude adulteration of specimens and drug test results.
 - d. Other necessary and proper actions taken to ensure reliable and accurate drug test results.
 - (c) A laboratory shall disclose to the medical review officer a written positive confirmed test result report within 7 working days after receipt of the sample. All laboratory reports of a drug test result must, at a minimum, state:
 1. The name and address of the laboratory that performed the test and the positive identification of the person tested.
 2. Positive results on confirmation tests only, or negative results, as applicable.
 3. A list of the drugs for which the drug analyses were conducted.
 4. The type of tests conducted for both initial tests and confirmation tests and the minimum cutoff levels of the tests.
 5. Any correlation between medication reported by the employee or job applicant pursuant to subparagraph (5)(b)2. and a positive confirmed drug test result.

A report must not disclose the presence or absence of any drug other than a specific drug and its metabolites listed pursuant to this section.

(d) The laboratory shall submit to the Agency for Health Care Administration a monthly report with statistical information regarding the testing of employees and job applicants. The report must include information on the methods of analysis conducted, the drugs tested for, the number of positive and negative results for both initial tests and confirmation tests, and any other information deemed appropriate by the Agency for Health Care Administration. A monthly report must not identify specific employees or job applicants.

(10) RULES.—The Agency for Health Care Administration shall adopt rules pursuant to s. [112.0455](#), part II of chapter 408, and criteria established by the United States Department of Health and Human Services as general guidelines for modeling drug-free workplace laboratories, concerning, but not limited to:

- (a) Standards for licensing drug-testing laboratories and suspension and revocation of such licenses.
- (b) Urine, hair, blood, and other body specimens and minimum specimen amounts that are appropriate for drug testing.
- (c) Methods of analysis and procedures to ensure reliable drug-testing results, including standards for initial tests and confirmation tests.
- (d) Minimum cutoff detection levels for each drug or metabolites of such drug for the purposes of determining a positive test result.
- (e) Chain-of-custody procedures to ensure proper identification, labeling, and handling of specimens tested.
- (f) Retention, storage, and transportation procedures to ensure reliable results on confirmation tests and retests.

(11) PUBLIC EMPLOYEES IN MANDATORY-TESTING OR SPECIAL-RISK POSITIONS.—

(a) If an employee who is employed by a public employer in a mandatory-testing position enters an employee assistance program or drug rehabilitation program, the employer must assign the employee to a position other than a mandatory-testing position or, if such position is not available, place the employee on leave while the employee is participating in the program. However, the employee shall be permitted to use any accumulated annual leave credits before leave may be ordered without pay.

(b) An employee who is employed by a public employer in a special-risk position may be discharged or disciplined by a public employer for the first positive confirmed test result if the drug confirmed is an illicit drug under s. [893.03](#). A special-risk employee who is participating in an employee assistance program or drug rehabilitation program may not be allowed to continue to work in any special-risk or mandatory-testing position of the public employer, but may be assigned to a position other than a mandatory-testing position or placed on leave while the employee is participating in the program. However, the employee shall be permitted to use any accumulated annual leave credits before leave may be ordered without pay.

(12) DENIAL OF BENEFITS.—An employer shall deny an employee medical or indemnity benefits under this chapter, pursuant to this section.

(13) COLLECTIVE BARGAINING RIGHTS.—

(a) This section does not eliminate the bargainable rights as provided in the collective bargaining process if applicable.

(b) Drug-free workplace program requirements pursuant to this section shall be a mandatory topic of negotiations with any certified collective bargaining agent for nonfederal public sector employers that operate under a collective bargaining agreement.

(14) APPLICABILITY.—A drug testing policy or procedure adopted by an employer pursuant to this chapter shall be applied equally to all employee classifications where the employee is subject to workers' compensation coverage.

(15) STATE CONSTRUCTION CONTRACTS.—Each construction contractor regulated under part I of chapter 489, and each electrical contractor and alarm system contractor regulated under part II of chapter 489, who contracts to perform construction work under a state contract for educational facilities governed by chapter 1013, for public property or publicly owned buildings governed by chapter 255, or for state correctional facilities governed by chapter 944 shall implement a drug-free workplace program under this section.
