LOW FLOW TOILET REBATE PROGRAM

Do I qualify?

You must be a customer of HCUD.

If you have a home built before 1994 and you have a 3.5 gpf (gallons per flush) or higher water-using toilet, it must be replaced with a 1.6 gpf toilet or lower.

If you have a home built before 2004, you may replace a 1.6 gpf toilet with a 1.28 gpf toilet.

You must use one of the participating plumbers for purchase and installation of your new toilet(s).

DIY Installations do not qualify for this rebate program.

For more info, call:

(352) 754-5851
(352) 754-4705

Don't flush your money away! If you have a toilet that was installed before 1994, you could be using more water than necessary. HCUD is offering up to a \$250.00 (\$125.00 per toilet) water bill credit for customers who are qualified and participate in our toilet rebate program. This program gives a water bill credit for qualified customers who have their high-gallon per flush toilet replaced with a new water-saving toilet of 1.6 gpf (gallon per flush) or lower (1.28 gpf) between November 16th, 2023 and September 30th, 2024.
